Departure of Steamers.

FOR PORT WASHINGTON, &C.
The Steamer Cleveland leaves Johnson & Olmsted's Dock every Tuesday, Thursday and Saturday, at 8 o'clock in the morning, for Port Washington, Sheboygan, Manitowoc and Two Rivers.

FOR CHICAGO, &C.
The steamer Traveller will leave Johnson & Olmsted's Dock every Tuesday, Thursday and Saturday evening, at 9 o'clock, for Chicago and Intermediate ports.

FOR COLLINGWOOD AND THE EAST.
The Collingwood Line of Screw steamers leave—one every day, from Dousman's dock, foot of East Water st., connecting at Collingwood with cars from the East.

FOR BUFFALO.
Screw steamers, with good accommodations for passengers, leave the different transportation docks every day for Buffalo.

The Negro Insurrection.

If the telegraph report is not greatly exaggerated, the negro insurrection at Harper's Ferry, in Virginia, has become quite a serious affair. The insurrectionists, to the number of five or seven hundred, led by a man named ANDERSON, were all well armed, and had complete possession of the town, including the U. S. Arsenal. They had stopped the Railroad trains, and cut the telegraph wires, making prisoners of all who opposed them. On receipt of the news at Washington three companies of artillery and a corps of marines were ordered to proceed to the scene of difficulty. Several volunteer companies had also left Baltimore for the same destination.

P. S.—A later despatch somewhat modifies the first reports, as will be seen by reference to our telegraphic columns.

The Grain Trade.

The wheat market was pretty active yesterday, and prices a shade above the closing quotations of the previous day. Receipts, including flour, were about sixty-five thousand bushels, namely, 1,325 bbls flour, and 58,915 bus. wheat. Shipments light on account of the storm.

Where Hobart Stands.

The *National*, BUCHANAN organ, pronounces our statement, that all the candidates on the Democratic State Ticket follow the lead and sail under the "Squatter Sovereignty" flag of Mr. DOUGLAS, a "slander against the Democratic ticket," and asks us when and where any one of them has made such an avowal. Mr. HOBART has done so in every speech he has made, as the *National* can ascertain by consulting the columns of the *News*. The same paper has authoritatively announced that all the candidates on the ticket share the views of Mr. HOBART on this question, and their cause is "identified" with that Mr. DOUGLAS. If the *National* still doubts where Mr. HOBART stands in this issue, let its editor call him out at the meeting to-morrow night.

CONVICTION OF PRESTON.—LUTHER PRESTON has been convicted by the U. S. District Court of Minnesota for stealing from the U S. mail. Mr. PRESTON stood high in the community where he resided. The town was named for him, and up to the time of his arrest, no suspicions had been entertained of his dishonesty. Yet he made a regular business of stealing from the mail the registered letters and sending their contents to his accomplice at Peoria, Ill. Further than this he had made an arrangement with that accomplice to come on to Preston and rob him (PRESTON) of the County funds, he being at that time the County Treasurer. PRESTON is a man of family, and about 50 years of age. He is reported to be wealthy and did not stand in need of the money at the time he committed the depredations.

THE liveliest gold item of the season, is in the Mariposa (Cal.) *Gazette*, of a recent date which says three quartz miners struck a "pocket" in a quartz lode not far from this place, from which they took in one day, quartz and gold that will yield nearly, if not quite, $30,000. Over $16,000 had been pounded out in two hand mortars, and there remained to be reduced in the same manner, three pieces, each of which was about as large as a peck measure. To us it appeared that at least one third of the entire weight of these was gold, which not only lay in flakes as large as a dollar on the outside, but it penetrated the whole rock.

SUDDEN DEATH AT RACINE.—Miss MORSE, aged about 21 years, daughter of ROYAL MORSE, Esq., of Racine, died suddenly on Sunday last. She had attended Church in the forenoon in usual health and was just leaving the house in the afternoon when she suddenly threw up her hands to her head and exclaiming, "Oh my head! I'm crazed!" fell backwards senseless. Her brother, who was near, caught her as she was falling, and immediately carried her into the open air.—Medical aid was summoned as soon as possible but all efforts to resuscitate her were unavailing. Her death is attributed to apoplexy.

A NEW DODGE.—The Parisian thieves lately introduced a new trick in the restaurants —that of taking silver spoons and attaching them with sealing wax under the table. The operator then walks out, and soon after, a confederate comes in, seats himself at the table and pockets the articles with impunity. But one saloon-keeper suspected the trick, and arranged looking glasses, so that a policeman, himself unseen, could survey all the operations at the tables, and that ended the game.

IMPORTANT EXPERIMENT.—The propeller *L. L. Britton*, of Albany, N. Y., passed up the lower Fox river last week to Fond du Lac, for a cargo of wheat, on an experimental trip. The *Britton* is one of the Erie canal steam propellers, of about 200 tons burden, and if the experiment should prove successful it will establish a new era in the freighting business between Lake Winnebago and the Atlantic.

MANITOWOC MARBLE.—The *Pilot* announces the discovery of a marble quarry about five miles from Manitowoc. It is pronounced by Geologists to be an extensive and valuable formation, and will undoubtedly contribute largely to the wealth of Wisconsin.

THERE is a remarkable dearth of criminal excitement is New York just now: fiendish outrages, and heavy defalcations seem to have mysteriously ceased for several days, and the reporters whittle their lead pencils and yawn.

THEODORE PARKER says "a grain of corn is better than a diamond." We believe every old hen in the country will agree with him.

A FORT ON THE PEMBINA.—The St. Paul *Pioneer* publishes a long and conclusive argument in favor of a fort at St Joseph. Its pictures remind one of "old colony times;" it says:

> Nothing but a life of insecurity, of constant familiarity with danger, could reconcile these people to the state of alarm in which their situation keeps them. And in fact, the Settlement has latterly largely decreased, at least one-third of the houses in St. Joseph having been deserted and their occupants removed to the British Settlements for the shelter denied them on the American side of the line.
>
> All the habits of the people seem formed and guided by the haunting presence of some invisible danger lurking in the woods and bushes around them. They live as in an enemy's country. All the windows are furnished with thick, wooden shutters, which are always closed at night, even in the hottest summer months. The trading houses and the Nunnery are enclosed in high stockades. No one goes into the woods close by without his gun. The cattle and horses which are not driven to White Horse Plains for safe-keeping, are every day counted over, and sometimes driven into enclosures with a guard at night. Experience has taught them a nervous fear of a hidden foe in every bush and ravine and clump of grass. Almost every year some of their number are killed near the village by their ambushed enemies.

WANTS SOUL.—The Oshkosh *Courier*, in speaking of the completion of the C. & N. W. R. R. to that place, top-layers its joy with a left-handed compliment:

> It is a common impression, that corporations have no souls; this may be an error; but there is no mistake about one thing, and that is, that some of the officers of the corporation known as the Chicago and North Western Railroad, are not burdened with a superabundance of that article.

A SHOWER OF ICE.—The Trenton *American* chronicles the greatest hail storm that ever fell in that vicinity. Some of the hail stones weighed half a pound, and measured from eight to ten inches. They were in fact chunks of flinty ice, and the noise caused by their falling on the roofs resembled the rattling of musket balls. The damage was extensive.

Indiana—Decided Republican Gains.

From the Indianapolis Journal, 15th.

We remarked yesterday that the indications afforded by the late county elections in this State were cheering to Republicans.—The more returns we receive, the more sure and encouraging these indications become.—We have no doubt at all that the Democracy can be beaten in this State next year. Certainly the revulsion of 1856 was not half so clearly marked by the local elections of 1855 as is a revolution next year by the elections of this. The following *Democratic* counties have either been carried in whole or in part by Republicans, or the majorities greatly reduced.

Brown, the old "steadfast," always good for 500 majority, elects an anti-Lecompton Democratic clerk, Mr. Adams, over the regular Democratic nominee, and elects a Republican Commissioner, Mr. N. N. Morris, by 200 majority.

DeKalb, always Democratic by 100 or over, elects the whole Republican ticket this year.

Clay, always Democratic by a good majority, elects the whole Republican ticket.

Carroll, always Democratic by a small majority, elects the whole Republican ticket by an average of 100 majority.

Cass, Democratic by 100 or more majority, elects the Republican ticket by 100 to 200 majority.

Hancock, Democratic by 300 majority, elects half the Republican ticket.

Miami, Democratic by a small majority, elects the Republican ticket by 160 to 200 majority.

Johnson, Democratic by 400, elects a Republican Auditor, and is reduced to 120 on the Democratic judge.

Porter, Democratic by 100 last year, elects the whole Republican ticket.

Tipton, Democratic by 150, is cut down to 70.

Shelby, Democratic by 500, is cut down to 120.

Noble, unreliable but usually Democratic by a small majority, elects the whole Republican ticket except the Clerk, which is yet in doubt.

The Wabash *Express* reports that Sullivan, the heaviest Democratic county in the State except Allen, has elected the whole Republican ticket.

Bartholomew, Democratic by 500, elects a Republican Clerk

Knox, Democratic, elects Republicans to about half the county offices.

Now this, we submit, is a very pretty record of Republican gains. Let us add to it the following counties which the Republicans have carried: Elkhart, Laporte, (except Recorder), Tippecanoe, Marion, Wayne, Henry, St. Joseph, Decatur, Hendricks, Warren, Hamilton, Vigo, Morgan, Park, Fayette, Union, Jefferson, Marshall, (after a hot contest), Kosciusko, Wabash, Jennings, Switzerland by 200 to 300, Floyd, Clark and Lawrence.

The British Corn Trade.

The continuance of broken weather thro' the past week has spoiled much of the second cut of grass, but has not seriously impeded field labor. The heavy rains have rendered the lands very foul, and perhaps its clearance may not be as complete as last year, though with favorable weather there is yet good time to prepare for autumnal sowing.—Accounts continue to vary in different localities respecting the wheat crop; but neither the quality nor the yield generally will bear comparison with the harvest of 1858. This impression gaining ground, with but few foreign imports, and better prices abroad, appears already to have influenced the English markets, and wheat has advanced, upon an average, another 1s per quarter.

In France the improvement is still more decided; the deficiency in the wheat crop throughout that important country being estimated at from 15 to 20 per cent. If this be really the case, it is very probable that the lowest prices have been passed in both countries, though the present abundance—resulting from the gathering of the harvest—as well as the readiness to take improved prices, are calculated to check much of an upward movement while stocks remain good. The other near countries, as well as Germany, show the same tendency; the slightest improvement in London telling immediately upon the corn trade at Dantzig and other great shipping ports. A new decree from Naples prolongs the free import of corn to the 30th June, 1860.—*Mark Lane Express, Sept. 24.*

LABOR and produce relives us from three great evils, vice, want, and indpendence.

THE CITY.

MILITARY PARADE.—The First Regiment Wisconsin State Militia paraded, yesterday, for their Annual Inspection and Review.—The line was formed in front of the Newhall House, about mid-day, and consisted of the following companies:

Milwaukee Dragoons, Capt. GEORGE.

Washington Artillery Co., Capt. HERTZBERG.

Milwaukee Light Guard, Capt. STARKWEATHER.

Montgomery Guards, Capt. DORAN.

Union Guards, Capt. BARRY.

Milwaukee Rifles, Lieut. BECKER.

Black Yagers, Capt. DREHER.

The Regiment was marched to the Fair Grounds on Spring street, where the Inspection was had. Afterwards the Regiment was reviewed by Brigadier-General BEST, accompanied by his Staff. The Review went off admirably. The Regiment then marched down street, the exercises of the day closing with Evening Parade. The turn out was good and the show a handsome one.

ANOTHER GALE.—We do not remember a season that equals the present Fall thus far for the number and severity of its storms.—For several weeks we have had gale after gale in quick succession, and the number of marine disasters, though considerable, is less than might be expected under the circumstances. One of the most fearful gales of the season was that of Monday night, and we fear that we shall have a long list of disasters on the lakes as its result. The wind changed into the Northwest in the evening and during the night blew a perfect hurricane. The steamship *Milwaukee* was out in the worst of it, but crossed the lake in safety. The *Detroit* had a very large load of freight and did not leave Grand Haven until 5 P. M. yesterday, as we learn from a despatch to the Company's agent here.

The propeller *Oriental*, which went ashore on the Skillagalee rocks some days ago, must certainly have gone to pieces in the gale of Monday night, if not sooner. She belonged to the American Transportation Company, and was bound from Chicago to Buffalo with a full load of provisions.

WHAT MANUFACTURES DO FOR A CITY.—A correspondent of the N. Y. *Tribune*, writing from Philadelphia, under date of October 12th, states this interesting fact:

> A census of this city, just completed for one of the Directories, shows our population to be 680,000. This is an increase of 271,238 since 1850, or, in round numbers, 66 per cent, the increase for the previous ten years being only 59 per cent. This growth shows that foreign commerce is not a necessary element in the growth even of a city which may be well situated for prosecuting it, but that manufacturing, railroad facilities, and the coasting trade are quite sufficient.

MILWAUKEE, is a commercial mart and a Railroad centre, enjoys very great advantages. But these would be doubled if we had Manufactures also. There is no more eligible spot in the North-West for a great manufacturing city, than Milwaukee, and none where manufacturing enterprise would command larger rewards.

BUSINESS OF THE MILWAUKEE AND MISSISSIPPI RAIL ROAD.—If the increased business of our Rail Roads is any indication of the approach of the "good time" that we have all been looking for so anxiously, the much desired period can not be far distant.—All the Roads leading to and from the city are doing *more business now than ever before*, in the history of our city. The Milwaukee and Mississippi, the old pioneer of Wisconsin Railroads, especially, is enjoying a large share of the traffic and travel between the East and North-West. Yesterday we alluded to the unusually long trains of freight cars, coming in over this Road of late. Mr. DANA, the freight agent of the M. & M. R. R., informs us that for several weeks they have had, on an average, better than *one hundred cars* of freight, consisting of grain, flour and cattle, to unload every day, and the receipts for freight here alone, have been about $18,000 a week.

MUNICIPAL COURT, Oct. 18.—James Gunnin, drunk; penalty and cost, $1,92. Paid.

Andrew Helmuth, petty larceny; fine and costs, $9,98. Paid.

Charles S. Kean, a "watch-snatcher," larceny of a watch and chain valued at $33; examination had and the defendent required to give bail in the sum of $1,000, for his appearance at the November term of this court, or be committed in default. Committed.

This is the individual who, a few days ago went into Mr. PREUSSER's jewelry store, bargained for two watches, and while Mr. P. was fitting a crystal to one, snatched the other and made himself scarce. He could not be found in this city, but was arrested in Racine under suspicious circumstances, and brought back here. He has a fair prospect for Waupun.

MAN DROWNED IN THE RIVER.—A man named PETER KUCK fell from the dock of the Northern Transportation Company into the river, on Monday night, and was drowned. He was heard fall in, but the night being very dark and stormy, he was drowned before assistance could be rendered. KUCK was a resident of the 5th Ward, where he leaves a wife and four children. He worked in the Menomonee Elevator. His body had not been found up to last evening.

GEO. P. GIFFORD is talked about by the Republicans as their victim for the Assembly in the Fourth Ward. Dr. Perry is sure to be elected.—*National*.

The only probability of such a thing consists in not allowing a comparison to be made between the nominees. We feel inclined to go a hat from the mere appearance of matters that PERRY is not—and is not *to be*—one of the elect.

INTOXICATION AMONG THE GOOD TEMPLARS.—Be it understood we mean intoxicating delight in the gatherings which, we understand, take place Wednesday evenings, under the name of Sociables, in which beauty and gallantry trip it on the light fantastic toe to pleasant music, which flows in lieu of wine. When sparkling eyes and—pshaw—go up to Good Templar's Hall next Wednesday evening!

MARRIAGES AT PLYMOUTH CHURCH.—Yesterday a large attendance at the Plymouth Church witnessed the marriage ceremony of Mr. ALVAH TROWBRIDGE to Miss ADDA SMITH, and of Mr. ROBERT SMITH, to Miss ANNA SMITH, performed by Rev. Mr. HUMPHREY, of Chicago. The church was decorated and a great deal of happiness seemed to prevail during the ceremony.

COLD SPRING COURSE.—A race will come off the Cold Spring Course, Saturday afternoon between Mr. ELKINS' bay racing mare, "Kitty Miles," (the old "Puss Ferris,") and H. MCCAFFERTY's "Little Flea," for a thousand dollars, the forfeit being already up. The race will be four mile heats and repeat.

THE FAIR OF THE ORPHAN ASYLUM opened yesterday, at Albany Hall. The attendance was good, and the display interesting. Good dinners were eaten by many of the visitors, and considerable interest was manifested in a lottery. The exhibition will continue to-day and to-morrow.

Wreck of the Oriental.

The captain of the Propeller *Oriental*, which went ashore at Skillagalee on Thursday, night, arrived here last evening, and reports the propeller a total wreck. She had a full cargo of provisions, hides, &c., from Chicago, and was bound for Buffalo. A murky atmosphere, leading the captain to misjudge the distance of the beacon light, was the cause of the disaster. The *Oriental* cleared from Chicago on the 10th, stopping at Waukegan, Racine, and this port, and took a small quantity of freight from both of the former places. She was owned by the American Transportation Company, who lose both the cargo and boat.

YOUNG MEN'S REPUBLICAN CLUB.—At a meeting to organize a Young Men's Republican Club, held on Tuesday evening, Oct. 18th, at the office of SCHURZ & PAINE, on motion of J. R. BRIGHAM, Mr. E. P. HOTCHKISS was appointed Chairman, JOHN JOHNSTON, Secretary.

The following gentlemen were elected officers:

President—WINFIELD SMITH.

Vice Presidents—First Ward, JACOB MAHLER; Second Ward, W. FRANKFURTH; Third Ward, T. B. KEMP; Fourth Ward, H. R. BOND; Fifth Ward, G. MENZEL; Sixth Ward, G. H. HOUGHTON; Seventh Ward, E. DOMSCHKE; C. NEUKIRCH; Ninth Ward, O. KEYES.

Secretary and Treasurer—JOHN NAZRO.

Executive Committee—H. J. PAINE, E. P. HOTCHKISS, E. W. CARPENTER, B. DOMSCHKE, J. R. BRIGHAM.

E. P. HOTCHKISS, Ch'n.
JOHN JOHNSTON, Sec'y.

WE POSITIVELY DECLINE to publish any more lengthy complaints about dogs. Moral suasion will not eradicate them. You may read Doctor PALEY to the owners and breeders, but it won't convey half the effect that two grains of strychnine, judiciously and carefully administered, will. We do not advocate the administering of poison to the dog owners; that might not be philanthropic, at the present stage of affairs, but to the worthless, dangerous curs, that infest our premises. If there is any other efficacious method of transmutating them into manure, adopt it—our plan is strychnine.

☞ Those desiring Cards, Circulars, Posters, Fly Bills, or any description of Printing, will find it to their advantage to call at the SENTINEL JOB ROOMS and leave their orders.

Our facilities for Job Printing are UNEQUALLED in the city, and our PRICES HAVE BEEN REDUCED so low that every Business Man can avail himself of the benefits of Printer's Ink, at a very small cost.

Those wishing to SAVE MONEY, and have their orders quickly and neatly executed, will not fail to GIVE US A CALL!

FOR CHICAGO AND TWO RIVERS.—As will be seen by an advertisement, the staunch steamer *Traveller*, Capt. SWEENEY, will hereafter leave this city for Chicago and intermediate ports every Tuesday, Thursday and Saturday evening, at 9 o'clock, and the steamer *Cleveland*, Capt. DOUGALL, for Port Washington, Sheboygan, Manitowoc and Two Rivers, at 8 o'clock on the morning of the same days. The steamers will depart from the dock of Messrs. JOHNSON & OLMSTED, at the foot of Main street.

MASONIC.—The members of the Masonic Fraternity in this city, are requested to meet at the Hall of Wisconsin Lodge, No. 13, LUDINGTON's Block, on Wednesday the 19th inst., at 1 o'clock P. M., for the purpose of attending the funeral of Brother EDWIN BRIDGEMAN, deceased, late a member of said Lodge, who died at his residence in this city, on the 17th inst.

Rather indefinite—somewhat contradictory, and altogether decidedly strange.

CHATTEL MORTGAGE SALE of Household Furniture, comprising bedsteads, bedding, bureau, sofas, chairs tables, mirror, crockery, and groceries, &c, &c., also one Sewing Machine, at 10 o'clock, this Wednesday morning, at the store of WILLIAMS & RODWAY, No 19 Wisconsin Street.

NYM SENDS word to us that if the *Free Democrat* will make allowance for the liberty types will sometimes take, and read "soft *sheen*" for "soft shine," in his last letter, it will perhaps conclude that he is not "almost equal to Cladins"—who is *altogether* a "soft shine."

ASSEMBLY NOMINATIONS.—ANDREW EBLE in the Wauwatosa District; JAMES T. PERRY, in the Fourth Ward; and L. A. SCHMITTNER in the Second, are the Democratic nominees for the Assembly. Rather a slim lot thus far.

CRAMPTON sells the entire stock of household furniture, in the brick dwelling, No. 161 Van Buren street, at 10 o'clock this morning. Great bargains may be expected.

BRICK HOUSE.—J. S. FILLMORE has one of the best brick houses on Marshall st., near Onedia st. to let at a low figure. It is a bargain to any one wanting a good house.

INFORMATION is wanted of PATRICK KENNEDY, of Limerick, Ireland, who came to this country five years ago, remained in New York two years, since which time he is believed to have been in or about Milwaukee. A letter to his sister, ELLEN KENNEDY, care SAMPSONS & BALDWIN, New York, will reach her. oct8i876d1w.

TO RENT.—J. S. FILLMORE has a house in the 7th ward, at $12; also another at $16; also a house on 5th st., a few doors north of Spring Street, at $12,00; also one on Jefferson St., near Mason, at $16.

SIXTH SENATE DISTRICT.

A Republican Convention for the Sixth Senate District will be held at the Niagara House in the Fifth Ward, on Tuesday, the 25th instant, at 2 o'clock P. M., to nominate a candidate for the State Senate, and organize the District for the November election. Each Town and Ward in the District is requested to send three Delegates to the Convention.

BY ORDER OF THE DISTRICT COMMITTEE.
Milwaukee, Oct. 15, 1859.

Wauwatosa and Greenfield.

NOTICE is hereby given that the Republican Electors of the Wauwatosa and Greenfield Assembly District, will meet at the Honey Creek School House, in the town of Greenfield, on Saturday, the 22nd day of October inst., at 3 o'clock P. M. for the purpose of nominating a candidate for Member of Assembly to be supported at the coming election.

TELEGRAPH!

REPORTED BY THE N. Y. ASSOCIATED PRESS FOR THE DAILY SENTINEL.

Later from the Insurrectionists.

BALTIMORE, Oct. 17.

The western train has not yet arrived. The officers confirm the statements first received. They say the bridge keeper discovered that the lights on the bridge had been extinguished, and when he went to ascertain the cause was pursued and fired upon by a gang of blacks and whites. The colored assistant baggage master on the train was also shot and mortally wounded.

Conductor Phelps was threatened that the train should not proceed. He waited till after daylight, and was then detained six hours by the mob. He says that the insurrectionists number 200 whites and blacks and have full possession of the armory, and are led by a man named Anderson, who lately arrived at Harper's Ferry. The rioters had seized a wagon of wheat, and loaded it with a quantity of muskets, and sent it up into Virginia. The military of Frederick City had been ordered out, and President Buchanan has ordered out the United States troops. A special train is now getting ready to convey troops from this city.

The President had also accepted the services of a company from Frederick, Maryland, and has also ordered companies from Old Point Comfort. This is authentic. It seems, however, to be considered that something serious is going on Another account by train says that the bridge across the Potomac is filled with insurgents, all armed. Every light in the town is extinguished, and the hotels are closed. All the streets are in possession of the mob, and every lane and road leading thereto barricaded and guarded. Men were seen in every quarter armed with muskets and bayonets.

They had arrested the citizens and pressed them into service, including many negroes. When this was done the U. S. arsenal and government pay house, in which there is a large amount of money, and all other public works, were seized by the mob. Some were of the opinion that the object was entirely one of plunder to rob the government funds deposited on Saturday at the pay house. During the night the mob made demands on the Wager Hotel for provisions, and enforced their claim by a body of armed men. The citizens were in a terrible state of alarm, the insurgents having threatened to burn the town.

STILL LATER.—All the trains have been stopped. One of the baggage masters and an individual with him, have been arrested and imprisoned by negroes. Harper's Ferry is in possession of the negroes.

LATEST NEWS!

BY LAST NIGHT'S REPORT

Later from the "Seat of War."

BALTIMORE, Oct. 18—9 P. M.

Intense excitement Nothing but insurrection. Gov. Wise communicated an order to Gen. Watkins of this city, to prepare, equip and mount immediately a body of men for service in the mountains near Harper's Ferry, where many insurgents have taken refuge. Troops will leave this P. M.

Gov. Wise passed the Relay House *en route* for the "seat of war." Three artillery companies from Fort Munroe arrived this evening, and are quartered at Fort McHenry, waiting orders. The directors of the Panama Railroad with their ladies, arrived at Martinsburg yesterday, on their way home from a recent excursion to Chicago, the train was however detained by the difficulties at Harper's Ferry, but as the track is now uninterrupted, they are probably on their way to this city, and may reach Philadelphia to-night.

HARPER'S FERRY—Noon.

Soon after storming the armory 4 dead bodies of the insurgents, who were shot yesterday, were found within the enclosure.—Capt. Brown and his son are dangerously wounded. The party originally consisted of 22 persons, of whom 15 are killed, 2 mortally wounded, 2 unhurt and 3 escaped with slaves. On Monday morning, soon after the assault on the armory, some firing took place from the hills on the Maryland shore, supposed to be a parting salute from Cook, who left on Monday morning. The fire was returned with a general volley, but both parties were too distant to do damage. A company of volunteers have gone in pursuit of the fugitives. There are probably a thousand armed men now congregated here. Reinforcements have been pouring in all night from all quarters of the surrounding country.

HARPER'S FERRY, Oct. 18—9 P. M.

The Secretary of War has telegraphed to Col. Lee that Mr. Ouid, District Attorney for this District, will proceed forthwith to Harper's Ferry to take charge of legal proceedings against the prisoners, and bring them to trial.

The train is now getting ready to convey horses and men from here to pursue the rioters into any state or locality where they may have fled. This is by order of the President, at the request of Gov. Wise.

BALTIMORE, Oct. 18—9 P. M.

The Directors of the Pennsylvania Railroad and their families left Martinsburg this morning for Baltimore. Travel is now resumed and trains are running regularly.

An eye witness who has returned from Harper's Ferry, describes the scenes there as follows:

The first attack was made by a detachment of Charlestown Guards, who crossed the Potomac river above Harper's Ferry, and reached the building where the insurgents were posted by the canal on the Maryland side. Smart firing occurred, and the rioters were driven from the bridge.

One man was killed here, and another arrested, the latter man ran out and tried to escape by swimming the river, a dozen shots were fired after him; he partially fell, but rose again, and threw his gun away and drew his pistols, both of which snapped; he then drew his bowie-knife, and cut all heavy accoutrements off, and ran for the river.

One of the soldiers was about ten feet behind. The man turned round, threw up his hands and cried "don't shoot;" the soldier fired and the man fell into the water with his face blown away. In the pocket of his coat was found a Captain's Commission to Capt. F. H. Leman, from Provisional Government of——[Here some trouble occurred on the line and stopped the report, 11 P. M.]

Later from California.

ST. LOUIS, Oct. 18—9 P. M.

The overland mail with dates to the 26th inst., arrived last night. The Pacific R. R. Convention had adopted resolutions favoring the central route, and had appointed committees to mature plans to be recommended to Legislature and Congress, and then adjourned to meet in Sacramento in January.

Judge Terry has been placed under $10,000 bonds.

The schooner Lewis Perry had arrived from the Amoor River, with Russian America advices to Aug. 12th.

A small steamer capable of ascending the Amoor 2,000 miles, was launched by a company of Americans who have the privilege of navigating the river.

Russian officials show the greatest favor for American enterprise, and encourage the immigration of American mechanics.

The bark Melisa, of Boston, was lost at Amoor river, on 22d June. Vessel and cargo insured in Boston.

The Sacramento correspondent of the San Francisco Bulletin says there is a project on foot among Republicans to exclude Scott and Burch, Congressmen elect, from the House of Representatives, on the ground that the California Legislature neglected to district the State as required by Congress, or to comply with the constitution, which says that Representatives shall be elected every two years.

Nearly the entire town of Monte Christo was destroyed by fire on the 19th. Loss $92,000. Another large fire occurred at Diamond Springs, involving a loss of $40,000.

Upwards of 60 Pitt River Indians had been killed by a party of citizens at Pitt River Valley, with a design to keep volunteers in the field, till the Indians were exterminated.

From Buenos Ayres.

NEW YORK, Oct. 18—9 P. M.

An arrival furnishes Buenos Ayres advices to Aug. 26th. News unimportant.

The previous report of the appearances of the Argentine Squadron off Buenos Ayres, and an exchange of shots with a Buenos Ayres steamer, is confirmed.

A Montevideo letter states that a forgery of the 60 million bonds had been discovered there and the forger arrested; he proved to be the Captain of a Spanish vessel plying between that port and Rio. The discovery served to unsettle business and created a great run upon the banking house of Senior Malta.

Mr. Henderson, charge 'd affairs to Paraguay, had demanded his passports in consequence of the Amisted affair not having been satisfactorily settled.

Explosion of a Locomotive.

INDIANAPOLIS, Oct. 18—9 P. M.

The locomotive Madison, with accommodation and freight train, going East, on the Bellefontaine Railroad, blew up yesterday, near Kilgore Station, killing instantly Jas. Wood, engineer, and a man named Griffin, fireman.

A QUESTION
Of the Butchers' and Drovers' Union,
ADDRESSED TO
OUR CITY FATHERS.
SOME TIME AGO WE PRESENTED several petitions soliciting the permission to erect a common Slaughter House, binding ourselves, if such permission would be granted, to procure a suitable site and erect the building at our own expense. The Common Council thereupon requested us to propose such a site, when we proposed a certain piece of land on the Menomonee river. A Committee of Nine, one from each Ward, was then appointed by the Common Council, to inspect the proposed site.—This Committe being so much pleased with said site, that they declared it to be the best selection that could be made for such purposes, reported unanimously in favor of our proposition. We then were told to procure a proper Ordinance in relation to the matter, which we did without delay, and which was properly introduced in the Common Council. But to our utter astonishment, all members of the Board with the exception of one, finally voted against said Ordinance! Now, we ask a candid public whether we did not all in our power to remove the objections against slaughtering all over the city, and the members of the Common Council we most earnestly and in all candor, would ask, where can we now exercise our right of following our own profession, many of us having already been sued and fined for slaughtering in and out of the city limits.
THE COMMITTEE,
Of the Butchers' and Drovers' Union.

The Great Secret at Last Discovered!!
JUNIUS JUDSON,
PATENTEE AND MANUFACTURER OF
JUDSON'S PATENT
GOVERNOR VALVES,
FOR REGULATING THE
MOTION OF STEAM ENGINES,
WARRANTED THE MOST PERFECT Governor of Steam Power in the world, and like all really great inventions, the most simple. Manufactured by Judson & Snow, at Rochester, N. Y., Selye Buildings, near R. R. Depot.
☞ Shop Rights for sale.
CAUTION TO INFRINGERS.
Patent issued in the United States, Nov. 5th, 1850. Reissued, Jan. 4th, 1851. Second Patent, March 4th, 1851. Patented also in Great Britain and the Canadas, June 6th 1851.
This improvement consists in making regulating valves to open with a rapidly increasing ratio of opening, by increasing the width of the opening made in the valve—or by accelerating the opening motion of the ordinary valves in use—or by combining increased width of opening, with accelerated valve motion. My patent Valve and Governors are so arranged as to give the resistance to the piston's motion, (or retard of the engine,) the power to open the valve just the exact amount of aperture necessary to counteract that resistance; and from the aperture, by the addition of equal amounts of resistance, notwithstanding that the action of the governor is continually decreasing in its effects.
I therefore reverse the action of valves combined with governors, as heretofore used. And as this effect can be produced by many different mechanical devices, (apparently not similar, but really identical with my improvement,) by which infringers have imposed upon the public, I therefore caution and request all persons interested, to examine carefully all alleged improvements in valves or governors, to see if the application of this truth or principle, first discovered and applied by me, is not involved in their arrangements;—and thereby prevent a fraud upon the purchaser and inventor, both of which are at present much annoyed by their piratical depredations. H. H. BRIGHTMAN, Agent, Milwaukee.

The Geological Survey.

We invite the attention of our readers to the letter in this morning's *Sentinel*, from Professor JAMES HALL, of the Geological Survey, in answer to the partizan attacks which have appeared in the Madison *Patriot*, Milwaukee *News*, and other Democratic organs. We do not believe that these papers were at all sincere in their animadversions upon the management of the Survey. Their sole object was to manufacture a little political capital out of the matter; and in order to do this, they did not hesitate to represent all three of the gentlemen, who are charged with the Geological Survey of the State, as "Black Republicans." Now the truth is, that Professor DANIELS is the *only* one of the three, who is amenable to this charge. Dr. CARR, of the State University, and Professor HALL, of Albany, the associates of Mr. DANIELS, are anything but partizans. Professor HALL, whom we have had the pleasure of knowing these twenty years, has always been a Democrat, and belongs to the "Primary," or politically speaking, the "Old Hunker" formation. Dr. CARR, so far as we know, is not indentified with either political party.—But both are *eminent* in their respective pursuits and admirably qualified for the business they have in hand. In the choice, too, of his assistants, Messrs. WHITTLESEY and WHITNEY, Professor Hall has been most fortunate. We know them both and will vouch for it that there are no better men in the country for the work with which they are specially charged.

But read Professor HALL's letter, which tells the whole story, fully and truly.

Gov. Randall at Janesville.

The *News* of yesterday partially reiterates its gross mis-representations of Gov. RANDALL's speech at Janesville. We have already branded the fabrication, upon Gov. RANDALL's authority, and invite our merchants and business men to come and hear the Governor for themselves to-morrow night. The *News* advises the Republicans to make the same excuse for RANDALL that its side have been compelled to offer for HOBART, to wit: "That these words were spoken in the heat of debate; that he did not have an opportunity to revise his speech before it was published; and that the publication of it was deliberately stupid, if not malicious."

That "dodge" may save Mr. FACING-BOTH-WAYS and his whereabouts, but Gov. RANDALL is not given to such practices. He does not hold one doctrine to-day and another to-morrow. He does not have to explain away in Janesville the speech he made at Horicon. He does not stab his friends to save himself. He speaks in no doubtful voice and with no double tongue. He has no "explanations" to make in Milwaukee of what he said at Janesville; but here, as there, holds the same language and maintains the same doctrines.

The South Carolina Amendment.

The *News* and other Democratic organs persist in charging the Republican party with Know-Nothingism on the strength of the two years amendment in Massachusetts. But they have not a word to say about the similar provision in South Carolina, which *preceded* that of Massachusetts, and is much more objectionable. Mr. HOBART, to be sure, sought to get rid of the matter by coolly informing his hearers that the South-Carolina provision was adopted *a quarter of a century ago*, and that the present generation were not responsible for it. This pretence was *false*. The amendment was adopted in 1856 and runs thus:

Amendment Ratified 20th December, 1856.

That the amendment in the fourth section of the the first article of the Constitution of this State, ratified 19th December, 1810, be altered and amended to read as follows: Every free white man of the age of twenty-one years, paupers and non-commissioned officers and private soldiers of the army of the United States excepted, who hath been a citizen and resident of this State two years previous to the day of election, and who has a freehold of fifty acres of land, or a town lot, of which he hath been legally seized and possessed at least six months before such election, or not having such freehold or town lot, hath been a resident in the election district in which he offers to give his vote six months before said election, shall have a right to vote for a member or members to serve in either branch of the Legislature for the election district in which he holds such property, or is so resident.

The following letter from the Democratic Attorney General of South Carolina shows when and why the provision was enacted:

OFFICE OF ATTORNEY GENERAL,
CHARLESTON, S. C., Aug 20, 1859.

DEAR SIR:—Yours of the 1st August, directed to Columbia, reached me only a few days since. I inclose you a copy of the article of the Constitution, about which you inquire, as it now stands under the amendment of 1856; likewise a copy of the amendment as adopted in 1810. You will perceive that the voter must have been "a resident *and a citizen*" for two years *at the time of election*. The amendment intended to put a stop *to the indecent habit of making citizens immediately preceding* and *on the day of election*, a Court in this city being always held at that time. It was not thought unjust toward adopted citizens, inasmuch as a native of South Carolina removing to another State, and returning to South Carolina had to reside two years in the State before he *recovered* the right to vote. It was thought that a foreigner naturalized could not reasonably claim to be placed on a *better* footing. Such happened to be my own condition. Though myself a native—with an ancestry for generations buried in the soil of South Carolina—a removal to Alabama took away my right to vote in this State, and on my return I was for two years denied this privilege, and during this time I saw hundreds of foreigners voting around me who were not citizens of a week old, and whose whole residence in the United States was not one-fifth as long as my own in South Carolina, to say nothing of the years passed in Alabama.

I think the amendment was suggested by myself. I considered it only right in itself, but it was further recommended to me because it deprived the Know Nothings—just before, a formidable party in Charleston—of a popular "cry" which met with a strong sympathy in public feeling. The amendment was drawn up by me, and introduced *simultaneously* into the Senate and House of Representatives; in the former by Mr. Porter, lately Chairman of the Executive Committee of a party to put down the Know-Nothings, which party had just triumphed—and in the Lower House by Mr. Whitney, a Know-Nothing.

An amendment to the Constitution is made in this State by a vote of *two-thirds* of *each* branch in *two successive Legislatures*, the proposition being advertised for six months in the interval. The amendment seemed to meet universal approval, and no voice of objection was raised against it, either foreign or native. I myself consulted with several of the most influential of our adopted citizens here, and they warmly approved the change, and assured me that they thought it would, when understood, be generally acceptable.

I would be pleased to know that you have received this explanation.

Very respectfully, your ob't serv't,
J. W. HAYNE.
To OSCAR STEPHENSON, St. Paul, Minn.

KNOW NOTHING SNEERS AGAINST FOREIGNERS.—A K. N. correspondent of the *News*, describing a Republican meeting at La Crosse, says of our candidate for State Prison Commissioner:

> Hon. Hans C. Hegg arose and repeated the lesson which was printed for him some three weeks since.

Mr. HEGG being a foreigner, these Democratic squibblers set him down as an *ignoramus*. He is, in fact, an intelligent, well-informed gentleman and an excellent business man.

The Geological Survey.

For the Sentinel.

APPLETON, Wis., Oct. 15, 1859.

DEAR SIR:—Since I came into this State to continue my investigations, I have found that many of the newspapers are occupied in abusing the Geological Survey, and those engaged in the work; and I find myself and my acts far from fairly or correctly represented. I do not know whether an explanation may be of any service to the cause of the survey or to myself; but I nevertheless, send you some facts which you are at liberty to publish if you think proper.

I did not seek the place I occupy in the survey, and I accepted it very reluctantly, after waiting more than a year from the passage of the law, and after that law had been submitted to a committee of the succeeding Legislature to propose some modification if deemed necessary or desirable. While that question was pending before this committee, nearly a year after the passage of the law (in February, 1858), I went to Madison and there saw the members of the committee and the Governor. I then not only stated my intentions regarding the survey, should I take a place in its organization, but it was a condition proposed by me and accepted by the committee, that Col. WHITTLESEY should be employed in the northern part of the State, to complete a work which he had already begun in some previous surveys; and that Prof. J. D. WHITNEY should complete his map and report on the lead region in which he had before been engaged and for which work no other person was so well prepared. I agreed to become responsible for the general Geology and Palæontology, contributing to the payment for the works mentioned above.

As the Legislature of that year adjourned without making any change in the law, I signed a contract making myself responsible for the general Geology and Palæontology.—This contract was made in the beginning of June, 1858, and as no money could be drawn from the State Treasury till work was performed, I advanced to Col. WHITTLESEY the funds necessary to begin work in the North, and subsequently gave him an order, on power of Attorney, to draw and appropriate to his own use the first quarter's salary due me from the State. This year, finding it impossible to obtain the means for carrying on the work in the North and in the lead region at the same time, Col. WHITTLESEY's work was temporarily suspended, and Prof. WHITNEY began his work in the lead region, and is still at work there, intending to finish, from actual surveys, a very complete map of that part of the country, on which every known mine will be accurately laid down. The report on this part of the country will be made uto during the winter and will be ready for the action of the next Legislature. A report upon the explorations in the North as far as made, will be ready at the same time; and also one upon the General Geology.

I have thus far never received one dollar for my personal services. I have been at Madison three times before the present on business or duties connected with the survey; I have on these occasions charged a part only of my personal expenses. From the time I accepted the position to the present I have been "out of pocket." Of the $2,000 drawn from the State last year, $1,800 was paid to Col. WHITTLESEY and to Prof. WHITNEY for services rendered, and I am still obligated to pay in the future for the completion of the work in the lead region. You will readily perceive therefore why I have drawn the salary by Attorney.

Whatever work I may have done, either in the general Geology or Palæontology, has been done thus far at my own expense; and I may say here that the Palæontology, so important to any Geological survey, can only be done where there are collections and libraries for comparison and reference. The collections only are to be made in the field, and I trust that the intelligent public of Wisconsin, will reflect that there is, in a Geological survey, something more than field work to be performed.

From the statements made, I am compelled to believe that there is some misapprehension in regard to my relations and objects in connection with this survey. This connection is neither of a partisan character, nor of pecuniary interest. I should very much regret if such misapprehension were to render abortive my efforts to make some contribution to Geological science, and, to bring out results which may serve to give correct views, regarding the mineral resources of the State.

The means at my disposal, I have used according to the best of my judgement and ability, to forward the objects of the survey; and I am prepared at any time to go before the Governor, or before the Legislature, with my accounts, and the vouchers for the expenditure: and I am ready to go before the people of Wisconsin, and the scientific world with the results of the investigations which I have made, or in which I have participated.

Very respectfully,
Your obedient servant.
General KING. JAMES HALL.

A Witness Against the News.

The following article, exposing the misrepresentation of the *News* and its reporter, in regard to Gov. RANDALL's speech at Janesville, is taken from the Janesville *Gazette*; the editor of which paper was present at the discussion there between Gov. RANDALL and Mr. HOBART, and therefore knows whereof he speaks:

A CHARACTERISTIC MISREPRESENTATION.—The Milwaukee *News*, on the strength of a report by Mr. Pomeroy, its local editor, who accompanies Mr. Hobart as a reporter and sycophant, charges Gov. Randall with advising business men in this State to do their business in Chicago instead of Milwaukee. This is a malicious misrepresentation of Gov. Randall's argument and meaning. Gov. R. was showing the influence of Judge Miller's court (which Mr. Hobart defended in the Legislature last winter, and now sustains,) upon the business of this State, and in doing so, stated that a merchant in Chicago could get credit out of Illinois, and still have the protection of his own State laws; but in this State, when a merchant contracts a debt out of the State, he is deprived of the protection of our State laws, and is thrown into the jaws of Judge Miller's court. This, he argued, was detrimental to the business interests of our citizens, and gave an advantage to the traders of Chicago.

We do not assume, of course, to give the language of Gov. R., for we have no notes of it; but this was his position and the object of his argument. The *News* is engaged in a congenial employment when Mr. Pomeroy runs into his smutty filter in its columns any falsehood he may have a motive for telling. Gov. Randall only stated a well-known fact and a well-known result, which every business man of Milwaukee will readily acknowledge. Hobart, as the friend and advocate of Judge Miller's court, is the enemy of the interests of Wisconsin, and not Gov. Randall.

BRODERICK'S LAST WORDS.—Col. E. D. BAKER, formerly of this State, but now of California, delivered an oration over the dead body of Senator BRODERICK at San Francisco. He gave the following as the last words of the deceased:

> But it is not by this standard that he is to be judged. He was a public men, and his memory demands a public judgment. What was his public crime? The answer is in his own words: "THEY HAVE KILLED ME BECAUSE I WAS OPPOSED TO THE EXTENSION OF SLAVERY AND A CORRUPT ADMINISTRATION." Fellow citizens, they are remarkable words, uttered at a remarkable moment; they involve the history of his Senatorial career, and of its sad bloody termination.

NOBLE'S ADDRESS.—We had two glorious speeches from Hon. B. G. Noble yesterday afternoon and evening, the former on State and the latter on National politics. The enthusiasm with which they were received reminded us more strongly of the Fremont campaign than anything we have seen in this place since then. Mr. Noble more than met the expectations of his hearers, which is saying much. The audience were charmed with the generous manner in which he spoke of his opponent on the other ticket, as well as his manly bearing throughout. The evening meeting terminated with three rousing cheers for the speaker and the State ticket.—*Baraboo Republic.*

GOLD IN WISCONSIN.—A nugget of gold weighing 9 pennyweights is reported to have been found near Grand Rapids.

Home Manufactures.

For the Sentinel.

MILWAUKEE, Oct. 15, 1859.

MESSRS. EDITORS.—I am glad to see that some one, over the signature "H. M.," takes up the subject of Manufactories, and I hope we shall have no cessation of agitation on this subject till the object is accomplished.

However well I may agree with "H. M." on the subject of a National Tariff, in was not my intention or desire in my former article, to touch that subject. What I wish is to have the people of *this State* see their true position in the great family of States and take such steps as will ensure to us as high a degree of prosperity as any of our sister States enjoy, let the policy of the general government be what it may. The subject of a National Tariff is a great one, and I think with "H. M." that its importance to this country is being daily more and more seen, and the time is not far distant when all parties will agree and be a unit upon this point, and in a judicious Tariff we shall have stable prosperity and increase in wealth, but meantime I wish our lovely Wisconsin to be improving such opportunities as do exist. In the New England States and in New York there are now many Manufactories, and much money to be involved in new ones. I wish our people, irrespective of party or locality, to realize the benefits to be derived from the establishment of Manufactories among us and to take steps to draw them here. This certainly is no party measure, nor is it local in its application. Every party in every portion of the State can lend heart and hand to it. Suppose two or three members of our Legislature, of different political faith, join in getting up a law to present at the next session, exempting from personal tax all property throughout the State which is employed in Manufactures. If such a law is wisely and discreetly drawn up it can run counter to no party or interest, and we can have it passed almost by acclamation. Its effect upon us, I believe, would be magical in drawing the needed capital, and our State could take the stand she is entitled to.

Without some such law to attract capital here for that kind of investment, we shall drag along without manufactories, spending all our crop each year to cover our backs and furnish the means of raising the next crop. Money will always be scarce with us until we retain it here in manufactories. I understand that the Hudson's Bay Company and others supplying the whole Northwestern, Pembina and Red River country have made contracts with the Detroit & Milwaukee, & La Crosse Railroads for carrying their supplies, and that the necessaries of that country are being carried directly through our State. There is not a village on the line of the La Crosse Road but ought to *supply* some portion of those things which are thus carried by them, and every manufactured article needed for that country as well as for our own, could, and ought to be made here. They could be made as cheaply as at the East and transportation saved, and on many things, two transportations saved, for the raw material first goes from here.—We send broom corn to New England to have Yankee handles put on, and then bring it back. We send lead to Buffalo to be ground and mixed with oil, and then bring it back. Our railroad bars all have to be sent out of the State to a rolling mill; and so it is in almost everything; we almost literally do nothing but raise grain, and though it is a splendid crop, if we have no means of retaining its value among us, we are constantly in want.

Who, among our Legislators, will make a move in this important matter, and, by writing his name to a measure that will redeem our State, will thereby win honor for himself? A.

THE LIQUOR DEALERS' SOCIETY.—The N. Y. *Express* gives a few interesting facts concerning this league. There are about 3,000 members "in good standing." The initiation fee is ten dollars. The officers of the society are very much like the general Committee of Tammany Hall—self-elected and self-re-elected—the members of the society generally caring nothing about it, so long as no judgments are obtained, or executions enforced, against them for breaches of the laws. The officers generally vote a reasonable amount of funds to be expended for election-day purposes; and, although all the political parties are represented in the board, the members happily divide off on the "Ides of November," like a flock of wild geese on St. Valentine's Day; and no political candidate has, as yet, received anything approaching the united vote of the liquor dealers. The society has on deposit, at the present time, about thirty thousand dollars, with which it is intended to fight the Excise Commissioners to the last. The salaried counsel of the society—who is one of the smartest criminal lawyers in the city, and generally appears also to defend the ticket swindlers and mock auctioneers—now has care of about two hundred and fifty actions pending in the Court of Common Pleas against members of the Society to recover the penalty of fifty dollars each, for selling liquor on Sunday, and about twelve hundred actions for selling without licenses every day during the last year, the demand in each suit being generally for $10,250. As the counsel is an expert in the quirks of the law, and is very successful in procuring postponements and other legal delays, not one of this latter class of actions has yet been reached in the calendar of the court for trial. Of the first class some half dozen cases have been tried, and judgments have been obtained but, not at all disconcerted, the astute lawyer has procured a stay of execution and order to carry the cases upon questions of law to the Court of Appeals.

THE TRIUMPHS OF FREEDOM!

The "Dough-Faces" Overthrown—Steady Tread of the People—The Earthquake Voice of the Keystone State and the Great North-west—New York Comes Next!!

The Victories achieved last Tuesday, will thrill the heart of the People everywhere, like the sound of a Trumpet. SIX MILLION OF FREEMEN HAVE SPOKEN! Their utterance is that of unequivocal condemnation of the principles and policy of the Administration, and of the party which sustains it.

Nor is this a spasmodic uprising. Year after year the same voice has been heard—growing in strength and volume and significance with every reiteration! Victory has followed victory, from Maine to Iowa, until now hardly a State, whose soil is not blackened by the foot-prints of Slavery, is so poor as to do reverence to a party whose principles and policy are at war with the fundamental principles of the Republic.

These triumphs, in their magnitude, timeliness and importance, cannot be over estimated. They do not simply indicate hostility to the bad principles of the Democratic party; but that hostility is so inflexible and so "irrepressible" that it will find utterance upon every available occasion.—They show that Republicanism has its seat in the heart of the People. It is *this* which renders the Republican party the most formidable and invincible which has ever had an existence in the Republic. It partakes of the spirit which moved the men of the Revolution, and which held them to the work through the long years of toil and suffering absorbed in that terrible but successful conflict. *That* contest was protracted; but its end was glorious. SO WILL BE THE END OF THIS WAR.—*Albany Journal.*

ASSEMBLY NOMINATIONS.—The Republican Convention in the Western Assembly District, nominated Dr. F. Fisher, of Cross Plains, for the Assembly, on Saturday. Dr. F. was formerly a resident of this city. The nomination is a good one, and goes far towards assuring a political revolution in that stronghold of hunkerism. Dr. F. is a German by birth. He speaks the English language with fluency, and is a sound Republican. He will, if elected, make an influential and useful representative.

The Republicans of the Third District, in this county, have nominated Mr. William Charleton, of Verona, as their candidate for the Assembly. This is an excellent nomination. Mr. Charleton is a man of strong mind, possessing first rate judgment, and is one of the most thorough and reliable Republicans in the county. He is a Scotchman by birth, but has been in this country sufficiently long to be well versed in the history of our government, and will make a valuable working man in the Assembly, to which body he is sure to be elected. His competitor is John Heath, Esq., of Verona, who is a Scotchman of fair ability.—*Madison Journal.*

THE STATE.

FIREMEN'S TOURNAMENT AT FOND DU LAC—OSHKOSH AHEAD!!—A trial of skill and strength, between the Firemen of Oshkosh and Fond du Lac, came off on Wednesday, at the latter place. Two prizes were offered by the citizens of Fond du Lac; one—a stand of colors, valued at $60, to be awarded to the company throwing a horizontal stream the greatest distance; the other, a silver trumpet, of the same value, to the company throwing the greatest quantity of water from a reservoir into a tank; time, three minutes. Each company to draft its own water from suction, playing through two hundred feet of hose, and to be allowed to enter sixty men only.

The first contest was for the prize on quantity, and the result was as follows—each machine playing in the order as named, which had previously been determined by the Foremen of each company drawing lots for the time to play:

No. 2 of Fond du Lac, ... 3 feet 1 1-4 inches.
" 1 of Fond du Lac, ... 3 " 3 1-4 "
" 1 of Oshkosh, ... 3 " 1 1-5 "
" 2 of Fond du Lac .... 3 " 3 1-8 "

No. 3 is a machine that carried off the prize at the late State Fair. She is a crack company, and our "boys" feel a reasonable degree of pride in overworking her.

The second prize was competed for by the Fond dulac companies only, No. 1 of Oshkosh being ruled out by the regulations of the tournament, which did not allow the company winning the first prize to compete for the second.

The distances thrown by the Fond du Lac companies, on the trial for the prize on streams, were as follows:

No. 3 of Fond du Lac, ... 176 feet 1 1/2 inches.
" 1 " " .... 175 " 3 "
" 2 " " .... 170 " 10 1/2 "

It was thought that No. 1 would have thrown a much greater distance than she did, had it not been for an unfortunate accident to her machinery, which disabled her before her men could get a full head of steam on her brakes.—*Oshkosh Courier, 14th.*

WAUKESHA.—BARN BURNED.—On Tuesday last, after our paper was worked off, the barn of Mr. Kent, near this place, was discovered to be on fire; and in a very short time the barn and contents consisting of a quantity of hay, corn, farming implements, &c., were entirely consumed. We have not learned the amount of loss sustained. There was an insurance of $300 upon the property.

Governor Randall was in town on Saturday last. He looks remarkably well—and his political tilts with Hobart, instead of wearying, have evidently benefitted him, both physically and *politically*.

Rev. Mr. Latin, the beloved pastor of the M. E. Church in this place, delivered his farewell sermon to a large and deeply affected congregation, last Sunday morning. A true Christian, and one of God's own noblemen, he will carry to the scenes of his new labors the kindest wishes of our entire community.—*Freeman.*

LA CROSSE—MURDERER ESCAPED.—Kneifer, the murderer of Wm. Dennison, and Jack Ridgley, imprisoned for burglary, escaped from the jail in this city, on Wednesday night last. The prisoners effected their escape by means of an auger furnished them by some person outside, with which they succeeded in cutting a hole through the floor, under the bed, and then digging out under the wall. The floor of the prison is made of square logs, and the prisoners succeeded very easily in boring one of them off in a couple of places, and making a hole large enough to admit of egress. We learn that Kneifer was seen at a saloon two miles up Mormon Cooley, about five o'clock on Thursday morning, with his irons still on. No effort was made by the saloon keeper to arrest him. The officers are out making a diligent search, but up to the hour of going to press we hear of no capture being made.

A LARGE HAUL.—We understand that about a thousand dollars in counterfeit gold coin was found in the cellar of the house formerly occupied by a man named Carpenter. Carpenter left this city on suspicion early in the Spring, and it is reported has since been killed in a fight at Pike's Peak.—*Daily Union.*

THE Portage City *Badger State* says: "Navigation from here to Green Bay, by the Fox River Improvement, is now first rate—over four feet of water in both the canal and river. The steamer Enterprize brought up a load of flour and wheat from Sauk City, and went down to Green Bay on Thursday. Lumber from the Wolf River is being towed up from Oshkosh, rafted in the canal here, and sent down the Wisconsin to the markets on the Mississippi—principally Dubuque and St. Louis. In this way seven or eight millions of feet have already been sent down this season. The steamer Lady Jane, from Berlin, will be here in a few days."

AVON P. O.—The Brodhead *Reporter* says: "We learn from the Post Master at this place, that the Post Office at Avon, Rock County, has been discontinued. He informs us that the Post Master resigned, and the department being unable to procure a successor, discontinued the office." We know nothing of the circumstances.

A GOOD SHOT.—We learn that Ira Bingham, who lives near Lake Koshkonong, made a capital shot on Thursday, killing fifteen ducks at one shot. He would probably have killed many more if the other barrel of his fowling piece had gone off.

GIRL BURNED TO DEATH.—a little girl only four years old, the daughter of James Cullen, was burned to death last Friday morning, in Charleston, Calumet Co. The Chilton *Times* says that "her mother left the house for a few moments and when she returned, the child's clothes were all in a blaze. Every effort was made to save her, but in vain; she expired in a short time after the flames were extinguished."

A FIRST CO. FAIR.—The Green Bay *Advocate* has a long account of the first Fair ever held in Brown County. Among other matters of interest we notice a "Mr. Beaumont" exhibited a "Black Canadian Stallion" that took three successive heats in 3:05, 3:06 and 3:08.

MENASHA.—Rev. J. I. Foote, who has been stationed over the M. E. Church for the past year and a half, closed his pastoral labors last Sabbath, and has gone to the Conference to be located among another people. Mr. Foote was universally beloved by his church and congregation, while his gentlemanly deportment, exemplary habits, smiling countenance and kind heart, won for him the highest esteem of all who formed his acquaintance. His departure from among us is a loss which will be deeply regretted by all.

ST. STEPHEN'S CHURCH.—The Episcopal denomination of Menasha are erecting a fine Church edifice on First street. The ceremony of laying the corner stone was performed by Bishop Kemper, a few days since.

WHO CAN BEAT IT?—S. L. Hart has a squash which grew in his garden in Menasha, that weighs 97 pounds, and measures nearly six feet in circumference.—*Neenah Conservator.*

GOV. CHASE.—Mr. Hassaurek, in a speech before the Young Men's Republican Association last night, made an allusion to Governor Chase, which was received with nine cheers. The fact indicates the current of Republican sentiment in this quarter. The republicans are unanimous for Chase as next Senator from Ohio, and he will as certainly be elected next winter to succeed the Hon. George P. Pugh, as he lives. Every scheme to defeat him which may be contrived, will be overwhelmed by the people.—*Cincinnati Commercial, Oct. 14th.*

☞ BŒRHAVE'S HOLLAND BITTERS.—The Press of the country has been particularly loud in the praise of the Bitters. Among the many notices, we offer the following to an impartial public:

"Bœrhave's Holland Bitters are an invaluable remedy in all cases of dyspepsia. They impart a strong, healthy tone to the stomach, and are the best renovators of the system generally."—*Chicago Bulletin.*

"Dyspepsia, Headache and Indigestion, by which all persons are more or less affected, can usually be cured by taking moderate exercise, wholesome food, and a dose of Bœrhave's Holland Bitters one hour before each meal."—*Balt. Sun.*

"Bœrhave's Holland Bitters for Dyspepsia, Headache, Loss of Appetite, Nervous Debility, and all diseases, consequent upon a disordered stomach and liver.—This article is very favorably known throughout the West, and is regularly prescribed by some of the most distinguished physicians."—*Phila. Ledger.*

"There can be no better remedy for Indigestion, Heartburn and Loss of Appetite than Bœrhave's Holland Bitters."—*Michigan Register.*

STATE OF NEW YORK, COUNTY and City of New York, } ss.
We, Nathan B. Graham, President, and Henry Beeckman, Secretary of the Firemen's Fund Insurance Company (to me personally known), being severally sworn, depose and say that the foregoing is a true, full and correct statement of the affairs of said Company, that the said Insurance Company is the bona fide owner of one hundred and fifty thousand dollars cash capital, one hundred and forty-two thousand dollars are invested in bonds and mortgages of land worth double the amount so loaned, and the residue of such capital, being the sum of eight thousand dollars, is held by said Company in cash on deposit in the Merchants' Exchange Bank of said city, subject to the order of said Company, that the mortgages above described have not been assigned, nor in any manner released or impaired by said Company, and that they are the above described officers of said Company.
[L. S.] N. B. GRAHAM, Pres't.
HENRY BEECKMAN, Sec'y.
Subscribed and sworn to before me, this 29th day of September, 1859. In testimony whereof, I have hereunto subscribed my name and affixed my official seal.
MOSES B. MACLOY,
[L. S.] Wisconsin Commissioner in the city of New York to take affidavits, and duly commissioned as aforesaid.
STATE OF WISCONSIN, Secretary's Office, Madison, October 7, 1859. }
Satisfactory evidence having been furnished to me that the "Firemen's Fund Insurance Company" of the city of New York, being an Insurance Company incorporated in the State of New York, having complied with the requirements of Section One of an act entitled "An act to regulate Insurance Companies not incorporated by the State of Wisconsin," approved March 17th, 1859; and having also paid into the State Treasury the sum of $40, according to the requirements of Section Five of said Act:
Now therefore, in pursuance of the Act aforesaid, the Secretary of State of the State of Wisconsin hereby certifies that JUSTUS REINHOLD, Esq., if he be duly authorized by said Company, may take risks, receive premiums, and transact the business of an Insurance Agent for said Company in this State, from this date until the 31st day of January next.
[L. S.] In witness whereof, I have hereunto set my hand, and affixed the Great Seal of the state, at the Capitol in Madison, the day and year first above written.
D. W. JONES, Secretary of State.

CITY AUCTION ROOM.

I HAVE THE FOLLOWING PROPERTY which I want to exchange for Dry Goods, or any other description of Goods:

First—A good Farm in Juneau County, Wisconsin, twenty-five acres under fence and in cultivation; a log cabin, such as we all were accustomed to live in when we first came to this country, twenty-five years ago; a good stream of water running thro' the entire farm; 40 acres of it is heavy timber. A large settlement surround the said farm.

Second—I have that large brown house, opposite Post Office on Wisconsin st., which contains about twenty-five rooms and rents for about one thousand dollars.

Third—I have two horses, one perfectly sound, kind and gentle; the other is somewhat foundered; but take the pair together and they make a good team for family use. Also, in connection, I have a carriage, buggy, wagon, sleigh, two sett harness, two side saddles, two mens' saddles, three bridles, whip, &c., &c.

Fourth—I have three hundred acres of school land in Marquette County, Wis. This land has been selected, as all other school lands. Now, all the above property I will exchange for Dry Goods, &c., or for any good city property. The said property is free from all incumbrances. CALEB WALL,

THIRTY-FIVE.

"The years of man's life are three-score and ten."

Oh, weary heart! thou'rt half way home!
We stand on life's meridian height—
As far from childhood's morning come
As to the grave's forgetful night.
Give Youth and Hope a parting tear—
Hope promised but to bring us here,
And reason takes the guidance now—
One backward look—the last—the last!
One silent tear—for youth is past!

Who goes with hope and passion back?
Who comes with me and Memory on?
Oh, lonely looks the downward track—
Joy's music hushed—Hope's roses gone!
Farewell, without a sigh or tear!
But hearts give way and spirits droop,
To think that love may leave us here!
Have we no charms when youth is flown—
Midway to death left sad and lone.

Yet stay!—as 'twere a twilight star
That sends its thread across the wave,
I see a brightening light afar
Steal down a path beyond the grave!
And now—bless God!—its golden hue
Comes o'er and lights my shadowed way,
And shows the dear clasp'd hand in mine!
But list what those sweet voices say:—
The better land's in sight,
And, by its chastening light,
All hope from life's midway is driven,
Save her whose clasped hand shall bring thee on to heaven.

THE SILVER SPOONS.

Nellie was humming—it was a habit she had. Nothing could Nellie do, from crotcheting a D'Oyley to making a dumpling, without humming low, soft, musical tunes all to herself; not plaintive ones always; often chirruping and light. One could not but feel cheered, catching a note here and there, because it seemed heart-music. Nellie had *had* her trials, too; but she was young and hopeful; no heavy disappointment had as yet crushed the melody out of her buoyant life; so she trilled away pleasantly over her daily occupations and amusements, with notes that might have been

"Like water-drops trained into melody."

I hardly know whether that fanciful suggestion occurred to me on account of her present rather homely employment—for Nellie was washing up the breakfast things—and as I said, Nellie was humming; she was of her own pleasure performing that office to help Gwyneth a little; and Auntie had brought her knitting and glasses into kitchen, and from time to time made reflections.

"What's that, Nellie?" as she struck off suddenly into a livelier air, after carefully rinsing a glass basin—she seemed to have a fresh tune for every fresh ablution.

"Eh? oh, why that's a bit from 'Traviata'—'Di tal amor!' Hum-m-m-m-," crooned Nellie.

"Very light and pretty," said Auntie approvingly; and the very clock seemed as though it were an amateur metronome.

Now she is wiping the egg-cups—"Hum-m-m-m!"

"What is that, Nellie?"

"Ah, that is from 'Lieder ohne Worte'—Mendelssohn, you know, Auntie."

"Indeed! I thought that a grander style of music," and she knits on. The teapot is now under hand. "I recognize that, Nellie: that's 'Annie Laurie'—pretty touching thing—makes me think of the Crimea."

"How, Auntie?"

"Why, don't you remember a letter from an officer, who, speaking of the night before the Balaclava charge, I think it was—or was it the storming of Redan? However, all the men and officers lay on the ground, resting, I suppose, round their fires, and one of them suddenly began singing, in a clear, manly voice—melancholy it must have sounded enough—'Annie Laurie;' and when he repeated the refrain, every man took up the strain, and chorused:

"For bonnie Annie Laurie
I'd lay me down and die."

Poor fellows! how many might have been deeply feeling that on earth they would never, never more see their 'Annie Lauries' as they

"Thought of the morrow."

Nellie made no comment on the touching association: but her eyes met Auntie's, and both were glistening. Then there was a long silence.

"I do not think since 'Auld Robin Gray,' any ballad has pleased me more. Ah! I remember Miss Stevens—how sweetly she *did* sing it, to be sure! Can you hum that tune, Nellie?"

And Nellie obeyed.

"Yes," added Auntie, "the noble woman's heart that breaks out in those few last lines:

"I'll do my best a gude wife to be."

where she flings away all young, loving, tender recollections of old times, and determines, come what will, to do her duty—there's something noble indeed, and pious, my child, in it. Her poor heart must never venture a thought on the past; but press forward, eager and intent only on duty. Do you think you'd have been as good as Janie, Nellie?"

"Oh, Auntie, I don't know. May I never be tried," she answered, her eyes and voice filling.

"God grant you never may, dear." And then fearing she had been too serious, and being, moreover, of a cheerful nature, Auntie commenced humming "Coming thro' the Rye." "Ah! when I was a girl what a favorite that was!"

And then the crooning went on again.—Then came a bit of the "Harmonious Blackbird," a mass of Mozart, the "Esmeralda Galop," and airs from "La Favorita;" and by this time Nellie was cheerfully wiping some silver which lay on the dresser. Two spoons attracted her attention, with a simple initial marked on them, without the crest by which all the others were distinguished.

"Auntie, these table-spoons are strangers; are they yours?"

"Eh, oh, those, ah! I put them out to be cleaned. Yes, they are mine. You miss the crest? Well, to my mind they should have one, or rather none is needed to increase their value, since they were connected with an act worthy of the days of chivalry."

"Days of chivalry—what do you mean, Auntie? My curiosity is roused. Come, there's a tale belonging to them, I know."

"Well, then, missie, if you'll just rub them with that wash-leather, and sit down by me, I'll tell you; for, indeed, there *is* a 'tale belonging to them.'" And then acting on a line from Coleridge—

"My eyes make pictures when they're shut."

Auntie closed hers for a moment, while Nellie rubbed away at the spoons silently.—Having conjured up her picture, and satisfactorily placed it in a good light as the artists say, she proceeded to the exhibition of it in the following words: "Nellie, love, do you remember old Miss Benson?"

"What, of The Willows? Why surely. But what connection there can be between her and chivalry, except in respect to her antiquity, I can't divine," she added, laughing.

"So you think chivalry belongs to a past age? Well, my dear, I think so too," said Auntie, dryly.

"Come, Auntie, do go on: I recollect her perfectly, and how I used to be sent with the nurse, riding on our old pony, down the long green lanes on summer evenings, with peaches and other such small deer in a little basket; and how once we were attacked by wasps, who nearly deprived me of my seat, and the old lady of her feast, at one sally; and I remember the house, with large white stones from the gate to the door—that awful black door, which was studded with nails, and such a weird old-fashioned place inside: such slippery brown boards! I was always impressed with my visits there, and held tight to nurse's hand, especially when she stooped to kiss me—such a strange, cold kiss, I—dear me, how it all comes back!" And Nellie smiled, and looked up wistfully at her companion. "Ah! I feel convinced she did not always live that life. Tell me. And I remember once she gave us three little old china cups and saucers—such queer little things! we always looked at them a respectful distance off. And then her ginger-wine! did you ever taste it? It makes one's throat burn to think of it even now! And the ginger-bread-nuts, too, *corresponding*. Poor Miss Benson! and she used to have long illnesses, I recollect, and sit so desolately by the hour alone, never seeing any one but that old General—as antiquated and singular as herself. Dear, there must be some romance! Now, then, Auntie, did you know her in her youth? Was she pretty?" asked the *woman* in Nellie.

"Well, you seem to remember more of her than I should have supposed possible. 'And was she ever young?' is your next question, I suppose. Your grandpapa told me, in his last illness, all I am about to relate—and he had been a faithful secret-keeper for thirty years: When he was quite a young man, and had just entered business, an old gentleman and his grand-daughter came to reside in the neighborhood—in the very house you so well recollect. That lady was Miss Benson. Not strikingly pretty; but with a 'pleasing sensible face,' as he described it, rendered interesting by a shade of sadness, which was only to be *caught* there—it was no *paraded melancholy*. Though considerably younger than Miss Benson, he was irresistibly attracted by her, and contrived to be one of the few guests whom the old gentleman chose to be even civil to. No doubt his kindly manners, and quiet, unassuming ways, were not displeasing to him. In a short time he ventured to express to Miss Benson his admiration of her devotion to her father, and, in short, his appreciation of all her noble, self-sacrificing qualities. She allowed him to go no further. She put her hand quietly on his:

"'Will you let me go on, and tell you all I wish to say?'

"'I thank you,' she said, with tears in her eyes; 'I have heard such words *once*—I *never* can again!'

"'And those words were from another, and not unpleasing to you?'

"She bowed her head. She was pale and subdued, but he could not answer her, or urge her; and then, shaking hands kindly, they separated.

A BLOODLESS VICTORY!!!
1,000,000 BOXES SOLD OF
MOREHEAD'S
MAGNETIC PLASTER

THIS ENORMOUS QUANTITY OF this invaluable Remedy has been purchased by citizens of the United States during the short time it has been before the public. The reason for this extraordinary success is simply in the actual truth and value of the article. No one buys the MAGNETIC PLASTER without becoming its friend. It performs all that is promised, and carries with it its own recommendation. Truly this is a Victory—peaceful and bloodless—but we believe not less glorious than the triumphs of war, with its train of carnage and desolation.

The MAGNETIC PLASTER is undoubtedly the Greatest Strengthener and Pain Destroyer that Science has yet discovered. If you put this Plaster anywhere, if Pain is there, the Plaster will stick there until the Pain has vanished. The Plaster magnetizes the Pain away, and
PAIN CANNOT EXIST WHERE THIS PLASTER IS APPLIED.

Rheumatism, Lameness, Stiffness, Weakness, Debility, Nervousness, Neuralgia, Dyspepsia, Coughs and Colds, Pains and Aches of every kind, are IMMEDIATELY RELIEVED, and, with a little patience, PERMANENTLY CURED, by the marvellous effect of the MAGNETIC PLASTER. It is the simplest, surest, safest, pleasantest and cheapest remedy in existence. Its application is universal—equally to the strong man, the delicate woman, and the feeble infant. It is alike applicable, and without annoyance or trouble. Its price is within reach of all—rich or poor; all may have it, and all should have it who are sick, and suffering in any way.

FARMERS and PLANTERS should always be supplied with the MAGNETIC PLASTER. It will be the Good Physician in any household, ready at all times and at instant notice.

Put up in air-tight tin boxes. Each box will make six to eight plasters, and any child can spread them. Price, twenty-five cents per box, with full and plain directions. D. C. MOREHEAD, M. D.,
Inventor and Proprietor, 19 Walker St., N. Y.

MORE TO BE ADMIRED THAN THE RICHEST DIADEM
EVER
Worn by Kings or Emperors.

What? Why a Beautiful Head of Hair.

BECAUSE IT IS THE ORNAMENT GOD Himself provided for our race. Readers, although the rose may bloom ever so brightly in the glowing cheek, the eye be ever so sparkling, the teeth be those of pearls, if the head is bereft of its covering, or the hair be snarled or shriveled, harsh and dry, or worse still, if sprinkled with gray, nature will lose half her charms. Prof. Wood's Hair Restorative, if used two or three times a week, will restore and permanently secure to all such an ornament. Read the following and judge. The writer of the first is the celebrated Pianist, Thalberg:

Money Matters.

We hear nothing new to speak of in money matters to-day. Rates for money and exchange are unchanged. The banks find enough to do in supplying their produce customers, and paper from other sources as a general thing gets the cold shoulder. Exchange in pretty active demand and steady, selling by the banks at 1½ and on the street at 1 per cent. Brokers' rates for money 1@2 per cent a month.

THE CHICAGO *Press & Tribune* of this morning says:

The money market is working smoothly with no special change since Saturday's quotations. If anything, exchange is rather closer, but rates are still 1½c. Currency is in good supply.

Gold is in better request at the price of exchange.—Discounts are made mainly to move the crops, and hence produce paper is almost all that is taken at the banks.

☞ Wisconsin, Illinois and Iowa currency is quoted at 1½ discount in Cincinnati.

Commercial.

Receipts and shipments of flour and grain to-day are as follows:

Shipments.

	Flour, bbls.	Wheat, bus.	Oats, bus.	Corn, bus.	Barley, bus.	Rye, bus.
To Buffalo	....	31,000	....	....	....	..

Holders were firm to-day and the prices paid for wheat were a shade above yesterday's closing quotations, namely: 87@87½c for Extra delivered, 86@86½c for do, on the track; 83@84c for Club; 80@81c for No. 1, and 79c for No. 2. The principal sales of No. 1 were at 81c on the track at upper and lower depots respectively. In the absence of advices from the East, buyers operated cautiously, and the sales reported are much below the aggregate of yesterday's transactions.—There was a good demand for flour, and some 1,500 bbls changed hands at $4@4,12½ for low grades, and $4,25@4,35 for good to choice country Extra—not of course including such brands as Menomonee, &c., which are little, if at all inferior to the best city flour.—Amongst the sales was one of 100 bbls "Stone Mills" Spring Extra at $4.75 f. o. b. Oats scarce and firm.—Rye steady. Barley not so active, but unchanged.—Freights firm at 7½c for wheat to Buffalo, and 30c for flour.

CHICAGO, OCT. 18th—Receipts: 5,105 bbls flour, 57,050 bus wheat, 5,114 bus corn, 12,093 bus oats, 11,240 bus barley.

The steamer's news had a depressing effect on wheat; which, however, was counteracted by the light receipts, so that the market fell only about ½c which was mainly gained back before the close. About 75,000 bushels were sold at 81c for No. 2 red; 81½@82c for No. 1 Spring, 78½@79½c for No. 2 Spring; and 74@75c for rejected—the market closing firm at 80½c for No. 1 and 78½ for No. 2. Flour was active and a shade easier, with sales of about 2,200 bbls at $3,90@4,25 for Spring Extras; $3,35@3,50 for Spring superfine, and $3,50@3,75 for Rye flour. Oats in limited request and 1c lower with sales of about 7,000 bushels at 31c for No. 1 in store, and 32½c for Canal afloat. Rye firm at 65@66c. Barley quiet, with sales of about 5,000 bus at 55@58c for No. 1. Timothy seed heavy, with limited transactions at $2,05@2,12½. Highwines unchanged. Hides very dull.

There are very few vessels in port, and they are held for higher freights. No engagements reported.—*Press & Tribune.*

CINCINNATI, OCTOBER 17TH.—Receipts: 2,050 bbls flour, 5,284 bus wheat, 7,245 bus corn, 2,216 bus oats, 2,113 bus barley.

The *Gazette* of yesterday morning says:

There was a moderate demand for flour on Saturday, and holders were very firm. Superfine is held at $4,65@4,75, and there is considerable demand for future delivery, with sales at the outside figure. Some of the orders that are being executed at this rate are from the East. The sales on the spot comprised 1,100 bbls, and were made up of extra brands at $4,80 to $5,25.—Wheat was in lively request, and the offerings were taken freely at very full rates. Prime white ranged from $1,12 to $1,16, and prime red sold at $1. New corn was dull at anything over 45c; at this figure there was a fair demand. We heard of a sales of 4,000 bus, deliverable at Seymour, at 35c, equal to 43c here. Rye advanced to 80@82c. Barley dull, with sales of prime Fall at 70c. Oats steady at 44@46c. Provisions were dull. About 200 bbls mess pork sold at $11,50, with more sellers than buyers at this figure. Nothing done in Bacon. It is held at 8@10c for shoulders and sides. Sales of 200 bbls lard at 10½c—dull.

MILWAUKEE DAILY MARKET.

Tuesday—7 P. M.

FREIGHTS.—The schooner *Wild Rover* takes wheat to Oswego at 10½c, and the *Fred Hill* to Buffalo at 7½c.

FLOUR—Market steady with a good shipping demand. Sales 1,534 bbls as follows: 100 bbls "Stone Mills" Spring Extra at $4,75 f. o. b.; 100 bbls "R. Jenkins" do at $4,35; 100 bbls "Watertown" do, 62 bbls "Roads" do at $4,30; 100 bbls "Berlin City" do, 62 bbls "Lowell" do, 50 bbls "Palmyra" do, and 190 bbls of a brand not reported, at $4,25; 120 bbls "Winnebago" do at $4,20; 100 bbls "Richmond" do at $4,15; 140 bbls of a low grade at $4; 200 bbls "Globe," superfine, at $3,75—all f. o. b.

WHEAT—Market a shade better than at the close yesterday. We note sales of 1,450 bus Extra Spring delivered at 87½c; 850 bus do at 87c; 750 bus do at 86c, on the track; 200 bus do at 85½c; 850 bus do at 85c; 3,800 bus Club, delivered, at 85c; 1,200 bus do, on the track, at 84c; 850 bus do at 83½c; 400 bus do at 83c; 750 bus No. 1, on the track, at 81½c; 18,000 bus do at 81c; 850 bus do at 80c; 8,000 bus No. 2 at 79c.

OATS—Scarce and firm. We note a sale of 150 bus at 31c.

BARLEY—Slow. Sales 150 bus at 55c.

CORN—Shelled quoted at 70@72.

RYE—Steady. A small lot sold at 61c.

SEEDS—Timothy $1,87@2,00; firm.

POTATOES—Common 35@40c; prime Neshannocks 45@50c.

EGGS—In barrels 8@9c and more plenty.

HIDES—The following are the current quotations to-day: Green 6c; green salted 6½@7½c; dry salted 11@12½c; dry flint 13@14½c.

HIGHWINES—A shade lower, selling to-day at 23.

WHISKEY—Firm at 23@24c.

MARINE INTELLIGENCE.

THE PROPELLER ORIENTAL ON THE ROCKS.—The *Press & Tribune* learns from Capt. Dickson, of the propeller *Hunter*, that the propeller *Oriental*, of the American Transportation Co., is on the rocks at Skilagalee. The *Hunter* passed her in the night, and was unable to get near enough to render any assistance. There was a rumor at Mackinac that she had thrown over 2,000 bbls beef. The *Oriental* cleared from Chicago for Buffalo on the 10th, with a cargo of provisions. She will probably prove a total loss, if she has not already gone to pieces in the gale of yesterday.

COLLISION.—The propeller *Montezuma*, clearing from this port on Sunday morning, ran into the tug *McQueen*, just outside the pier, striking her amidships, and cutting her down to the water's edge. The *McQueen* was kept afloat with some difficulty, until brought inside, and was damaged some $500.—*Chicago Press & Trib.*

Great Through Route to New York,

TOLEDO, CLEVELAND, PITTSBURG, Harrisburgh, Wheeling, Syracuse, Troy, Burlington, Detroit, Suspension Bridge, Niagara Falls, Buffalo, Dunkirk, Albany, Rutland, Montreal, Boston, Philadelphia, Baltimore, Washington, Springfield, Worcester, Portland, Quebec and to all points in Ohio, Pennsylvania, New York, and the New England States.

6:00 A. M.—Mail and Accommodation, Via old Michigan Road, daily, (Sunday excepted) reaching Toledo at 4:25 P. M., connecting at Adrian with train reaching Detroit at 7:30 P. M., connecting with trains on Great Western R. R. Line.

8:00 A. M.—New York Express, daily, (except Sunday) via Goshen Air Line, reach Toledo at 4:35 P. M., and Detroit direct, at 7:15, in time to connect with trains on Great Western R. R., eastward, and all points interior in Canada.

7:00 P. M.—New York and Boston Express, (Daily, Saturdays excepted,) Via old Michigan Road, reaches Toledo at 5 A. M., and Detroit 11:30, connecting with 1:25 P. M. train on Great Western R. R.

Connection made at Clyde and Monroeville for all points interior in Southern and Middle Ohio. Direct connections made at Cleveland with trains for Pittsburgh, Philadelphia and Baltimore, making as quick time as any other route.

WOODRUFF'S PATENT SLEEPING CARS accompany all Night Trains on this route to New York and Boston.

All Trains for Summer are newly fitted with Ventilators and dusters.

Tickets can be had at all ticket offices in the West and at the Company's Office under the Revere House, corner Randolph and Dearborn streets, and at the Depot. GEO. M. GRAY, Gen'l Western Agent. JOHN D. CAMPBELL, Gen'l Supt.

CITY OF BUFFALO, A. D. PERKINS, Comm'r, and WESTERN METROPOLIS, W. T. PEASE, Comm'r, form an Evening Line between Cleveland and Buffalo.

One of the above magnificent boats will leave the C C & C Railroad Dock, Cleveland, every evening (Sundays excepted) at 8 o'clock, or on the arrival of the trains from the South and West, making sure connection at Buffalo with the morning trains on the New York Central and Buffalo, New York & Erie R. R., for Niagara Falls, Rochester, Syracuse, Rome, Utica, Albany, Corning, Elmira, Oswego, New York and Boston.

It is useless to speak elaborately of the above boats, being already well known to the travelling public as in all respects First Class, Commodious and safe.

Thus rendering a summer trip to New York or any point east of Buffalo, the most desirable of any that could be planned.

Tickets can be had at the ticket offices in the West and at the Company's office under the Revere House, corner Randolph and Dearborn streets, and at the depot. GEO. M. GRAY, Gen. Western Agent. JOHN D. CAMPBELL, Gen. Supt. dec15h53?dly.

PITTSBURG, FT. WAYNE & CHICAGO R. R

NOW COMPLETED TO CHICAGO.

THIS NEW AND DIRECT ROUTE IS now open to New York, Boston, Pittsburg, Philadelphia, Baltimore, Washington City, Cleveland, Dunkirk, Buffalo, Niagara Falls, and all Eastern Cities; Cincinnati, Columbus, Dayton, Springfield, Urbana, Zanesville, Steubenville, Newark and Wheeling, and all interior towns of Ohio, Pennsylvania, Virginia, Maryland, New Jersey, &c., making one grand unbroken Railroad line between

CHICAGO AND THE EAST.

FARE AS LOW AS ANY OTHER ROUTE.

☞ Passengers wishing to go by this desirable and pleasant Route, should be particular and ask for Tickets by Fort Wayne, avoiding the annoyance of re-checking baggage as by other routes.

Trains leave the depot on VAN BUREN ST., daily as follows:

7:15 A. M., Morning Mail and Express.
7:25 P. M., Night Express.

CHECKING BAGGAGE THROUGH

To Pittsburg, Philadelphia, Baltimore and New York. Connecting directly with trains on the great Pennsylvania Central Railroad, to all Eastern cities. Also, with the Cleveland & Columbus R. R. to Cleveland, Dunkirk, Buffalo, Niagara Falls, via New York Central and New York and Erie Railroads to New York and Boston.

Persons going East will find this route by far the most desirable, both from the advantage in point of distance, variety and beauty of the country through which the roads pass, as well as the less frequent changes of cars, and the annoyance of re-checking baggage required by other routes.

Facilities for the transportation of Freight and Live Stock by this route, are unsurpassed. Rates as low as any other route, and with equal dispatch.

Tickets for sale at all the principal ticket offices at the West, and at the Company's Office, No. 50 Dearborn St., opposite the Tremont House, Chicago, and at the Union Ticket office, No. 230 East Water St., Milwaukee.

IMPORTANT NOTICE

—TO—

MILLWRIGHTS AND OWNERS.

The Excelsior Water Wheel Co.

ARE MANUFACTURING A NEW KIND of Water Wheel, patented 11th May, and 14th December, 1858, by J. H. Fairchild, of Vermont. It involves an entirely new principle of obtaining power, and of controlling the water, by which we obtain a greater maximum power than is afforded by any other wheel now in use. Some of the advantages of this wheel are:—

1st. We obtain the ENTIRE WEIGHT of the water, and have the advantage of the full head and fall, from water to water.

2d, It surpasses all other wheels in velocity and power.

3d. It is perfectly under the control of the workmen, either when used to drive a large or small amount of machinery, as the strength of the wheel is not diminished by reducing its motion, since it depends upon the WEIGHT of the column of water BELOW the wheel, which always remains about the same.

4th. It occupies less space than any other wheel—is placed inside the flume, near the SURFACE of the water, and is never affected by frost.

5th, The wheel is very durable, being made of iron, and can be put in in any place and attached to Saw Mills, Grist Mills, and machinery of all kinds, with LESS expense than any other wheel. The velocity of the wheel is such that the expense of gearing up is avoided for nearly all purposes.

Together with the advantages above stated, we are ready to warrant the Wheel to possess a power equal to the following figures, for each foot fall of water:

6 inch	wheel......................	52.100	horse-power.
10½	"	78.100	"
12	"	99.100	"
13½	"	1.31.100	"
16	"	1.55.	"
16½	"	1.37,100	"
18	"	2.35.100	"
19	"	2.65.100	"
20	"	2.96.100	"
22	"	3.58.100	"
24	"	4.29.100	"
26	"	5.25.100	"
28	"	5.95.100	"
30	"	6.81.100	"

Wheels of the above sizes make from 400 to 1000 revolutions per minute. When sold, are complete with gate, pully and shaft, so that the purchaser has only to place it in the flume, which can be done with les expense than any other wheel.

The Company have competent workmen, who will put them in any place in workmanlike manner, at reasonable rates. The Wheels can be afforded at a less price than any other wheels now in use.

CERTIFICATES.

MIDDLETOWN, Ct., Dec. 1, 1858.

Dear Sir—In answer to your favor asking my opinion of the Fairchild Patent Water Wheel that you put into my factory for me, I take great pleasure in stating that it has exceeded my expectation. I took out a Breast Wheel 10 feet in diameter, by 9 feet Buckets, and replaced it with one of "Fairchild's Patent" 15 inch Wheels, and it gives more power, with no greater amount of water, and the motion is as steady as that of a steam engine. It has also the advantage of being very cheap and durable.

It operates under a 9 feet head and fall, and carries with equal regularity and steadiness a greater or less amount of machinery, "such as is necessary for the manufacturing of fire arms," whereas an increase of machinery upon my old Wheels would materially lessen the speed.

It is without doubt the best Wheel I have ever used, and my experience in Water Wheels extends over a period of 25 years. Any one interested in Water Wheels will be convinced of its superiority (however skeptical) if he will take the trouble of calling at my factory and see its performance.

I am, yours, respectfully,
EDWARD SAVAGE.

Mr. Savage writes me again under date of Jan. 5th 1859. The Wheel continues to perform entirely well, and I am more and more pleased with it. It has not caused us a moment's delay since you were here.

SHELDON, Franklin Co., Vt., June 29, 1858.

Dear Sir—I have one of Mr. Fairchild's wheels in operation at my Machine Shop, which I can recommend to the public with perfect confidence, as possessing all the advantages which are claimed for it. The wheel which I am using is twelve inches in diameter. It gives more power, and runs more steadily than the twelve feet Breast Wheel, which I have heretofore used, requiring less water under the same head and fall.

H. CARLISLE.

Many other testimonials from heavy eastern manufactories may be seen at my office, where the public are invited to call and examine this wheel, and where they will at all times be kept on hand to supply the demand. An 18 INCH wheel is now running the Planing Mill and other Machinery necessary for the manufacture of Sash, Doors and Blinds at the manufactory of M. Y. King, Esq., (State Dam) Joliet, Ill., where any and all are invited to call and examine it under practical test, and a motion of 700 revolutions per minute. For further particulars please address

POPULAR ESSAY

ON THE

DISEASES INCIDENT

TO

TRADES AND OCCUPATIONS.

IT IS OUR PURPOSE TO WRITE, AS briefly as possible, concerning the diseases and disorders incident to certain occupations including their causes, symptoms, and mode of cure. We shall do this in plain language, and in a straightforward way. Our purpose is two-fold—firstly, to give some curious facts not generally known; and, secondly, to bring more forcibly to view the ready relief at hand in RADWAY'S REMEDIES. We frankly avow that the trouble we are taking is a business transaction, meant to benefit both the public and ourselves.

The diseases springing from various trades arise either from the very nature of the occupations, from the materials handled or used, or from both causes. Scarcely any of these pursuits are necessarily unhealthy, but men will be as imprudent in their business as in their pleasure, and suffer for their neglect of precaution.

Let us look first at those who suffer from poisonous materials.

COPPERSMITHS, BRASS-FOUNDERS, BRAZIERS, AND PINMAKERS

from their manipulation of copper and its compounds, take into their system either the impalpable dust of its oxides or salts, or their fumes. The result is a copper disease, whose symptoms may vary more or less in violence, sometimes creeping slowly along until the system is utterly destroyed, or else opening an avenue to more apparent diseases. The victim to the copper disease notices, perhaps, on rising in the morning, a slightly acrid taste in the mouth, a slight constriction of the throat, the tongue dry and parched, and, sometimes sickness at the stomach. He thinks he has caught cold, and, probably, takes some advertised expectorant, which leaves him worse than before. At times there comes an attack of colic. If dysentery is at all epidemic, he is very liable to be attacked, and his tormina and tenesmus, as the doctors call them, namely, his pain in the bowels and disposition to stool, are exceedingly violent. Often a thirst which he cannot account for, or a distended abdomen, or black stools, slightly streaked with blood, or an undefinable anxiety, is the commencing symptom, and is scarcely noticed. Cramps sometimes make their appearance in the limbs and stomach either alone or accompanied by some of the symptoms previously enumerated. A headache at the close of work, or during the day, is quite common. A preventive of these would be the use of a respirator, which checks the passage to the lungs or stomach of the dust or vapor, and gloves, to keep it from the pores of the skin. A generous diet should be used, the bowels kept open by moderate doses of *Radway's Regulating Pills*; a dose should be taken in the morning and evening of *Radway's Ready Relief*, and the use of *Radway's Renovating Resolvent* persevered in until the system is rid of the poison.

TYPE-FOUNDERS, PEWTERERS, PAINTERS, PLUMBERS AND GLAZIERS, AND WORKERS IN MANUFACTORIES OF SHOT-TOWERS,

are exposed to the lead disease. This, like the copper disease, may produce a series of insidious but scarcely noticed symptoms, ending sometimes in paralysis, or, more especially with painters, and white-lead makers in what is generally called painter's colic. These all, at times, will notice in their mouth, more particularly on rising, a sugary and slightly astringent taste, constriction of the windpipe, pain and uneasiness in the region of the stomach, and occasionally nausea, followed sometimes by vomiting.

COACH PAINTERS,

or those who use much vermilion, will have a tendency to diarrhea, for, unlike copper, this shows its effects more in the small intestines; and the bladder and urinary passages will be seriously affected, sometimes merely producing painful urination, and at others, bloody or high-colored urine. The *Regulating Pill* and the *Resolvent* must be mainly relied on, and the parties should never go to work on an empty stomach. For the more painful symptoms the *Ready Relief* will be necessary, and will by no means belie its name. It should be used internally and externally. In painter's colic, the *Regulating Pills* should be used to produce a free evacuation, and afterward more moderately, to keep up regular action; and from the very start, the *Ready Relief* given in full doses, in flaxseed or slippery-elm tea, or gum-water. The diet should be light, chiefly beef tea (not beef soup) or chicken broth, from which the fat has been skimmed. In paralysis, the persistent use of the *Regulating Pills*, with the *Ready Relief*, well and steadily rubbed into the affected limb or part for at least fifteen minutes, three times per day, and a generous, but digestable diet, will effect a cure. In all external applications the palm of the hand is the best thing to rub with, and a female hand, from its softness, should be preferred.

DYERS AND CALICO PRINTERS

are liable to several severe symptoms. Those who use muriate of tin sometimes perceive its effects in their systems. They observe an austere taste in their mouth, which is apt to turn into a well-defined metalic one, together with nausea, especially after rising from a meal. Their pulse is more small and hard, and beats more frequently than natural. One very common symptom is a frequency of stool, and diarrhea, for during some months this may be unattended by pain, and the consistency of the evacuations be normal. Twitching of the face and extremities is less common, but a more dangerous symptom, for unless promptly met, it may be followed by a paralysis of the parts attacked. The treatment in this is the same as in the copper disease, viz: *Radway's Ready Relief, Regulating Pills* and *Resolvent*.

TINSMITHS

are sometimes affected in a manner similar to dyers, but in a less degree. Their attacks are rare. If peculiarly susceptible they may take the lead poison from the solder, but we never knew but one case of that kind. The acrid fumes of charcoal, in this and similar trades, sometimes produce inflamation of the bladder, which may be effectually combatted by the *Relief* and *Regulating Pills*.

PAPER-STAINERS AND TAXIDERMISTS,

occasionally suffer some most distressing symptoms—the former from the showy greens they use, and the latter from their constant handling of arsenic or the corrosive chloride of mercury. A fœtid breath is not uncommon, with a rather austere taste at times, considerable increase of saliva, or constriction of the lower part of the throat, which seems to extend into the breast, frequent hiccough, sometimes a fainting sensation, which comes and goes very suddenly, very black and offensive stools, or high-colored urine.—These are some of the symptoms which may occur separately or together. It is a curious fact that some people engaged at these occupations grow quite plump, and apparently enjoy the best of health, having especially a fresh and clear complexion. If, however, they go into any other employment, or refrain from work for some weeks, they are very apt to be visited with many or all of the above symptoms. In either case, the *Resolvent* should be used along with the *Regulating Pills*, the relief being resorted to in order to remove immediate pain or distress.

ELECTROTYPERS, GLASS-STAINERS, AND GLASS-ENAMELERS, MANUFACTURERS OF CHEMICALS, GOLD AND SILVER PLATERS, AND REFINERS,

are liable to many of the above symptoms. Electrotypers are especially liable to derangement of the bladder.

PRINTERS AND TYPE-FOUNDERS,

from the constant handling of type-metal, contract the effects of antimony. This is shown by the temporary paralysis of the fingers and hands, copious stools, cold night sweats, loss of strength, tenderness of stomach, bowels and throat. Sometimes, though drinking nothing but water, they feel a confused, semi-intoxicated sensation in the head. The treatment here is gentle purging with *Radway's Regulating Pills*, aided with the *Ready Relief* as a drink; when the disease has become chronic the *Renovating Resolvent* must be used as an adjuvant to the *Relief* and *Pills*.

MASONS AND BRICKLAYERS, ASSISTANTS, AND MORE ESPECIALLY LIMEBURNERS AND WHITE-WASHERS,

are constantly liable to vomiting, pains in limbs or temporary palsy, which latter sometimes becomes [illegible]nent. A milk-diet, mucilaginous drinks, and [illegible] of the *Ready Relief*, will remove most of these [illegible], the *Resolvent* being also necessary where [illegible] supervenes. Sometimes costiveness follows, [illegible] the use of the *Regulating Pills*. The par[illegible] lime in the eyes are very apt to produce con[illegible], which will yield to an eye-wash made of [illegible] pitch and water, into which the *Ready Relief* [illegible] in the proportion of six drops to every two [illegible] spoonfuls, increased gradually to ten drops.— [illegible] two of the *Regulating Pills* will materially [illegible] subduing this inflammation.

The makers of [illegible] are sometimes troubled with the [illegible] by the phosphorus, which [illegible] of the type. A chronic [illegible] tonsils is sometimes the result [illegible] coming on very insidiously, and if not checked [illegible] extending to the windpipe, and even to the branchi[illegible] air-tubes of the lungs, called by the doctors the [illegible]chitis. When this commences it may be soon checked by a gargle made up of equal proportions of the *Ready Relief* and water.

We will next examine the cases of those who are affected by disease from irritating substances applied to the lungs and air-passages mechanically, with which, indeed, some of those mentioned previously might be classed.

CARPET AND OTHER WEAVERS, CHARCOAL DEALERS, BOILER MAKERS, WHITESMITHS, LOCKSMITHS, MACHINISTS, FURRIERS AND FUR DEALERS, GLASS CUTTERS AND DRILLERS, MATTRASS-MAKERS, TEA PACKERS, CUTLERS, FILE MAKERS, LAPIDARIES, SCULPTORS, STONE-CUTTERS, SHEATERS, CARPET-BEATERS, GRINDERS AND POLISHERS, STREET-SWEEPERS, AND WOOL-PULLERS,

are subject particularly to bronchial affections and consumption, arising from the floating particles of irritating matter disengaged during the process in which they are engaged, and entering the air passages. In all such cases *Radway's Ready Relief*, applied externally over the throat and chest, and the *Renovating Resolvent*, taken internally, will speedily effect a cure, and remove all traces of incipient consumption.

HATTERS

were formally included in the same position, but the advent of silk hats greatly diminished this tendency. A respirator is very necessary as a preventive, and, indeed, as an aid to cure. A silk handkerchief tied over the mouth and nostrils, when directly exposed, is as good as anything. A generous diet, vigorous, out-door exercise, and the use of the *Ready Relief* and *Resolvent* will soon restore the system to health.

FARMERS, HOSTLERS, GROOMS, AND ALL WHO HANDLE HAY,

are liable to the distressing, though rarely fatal complaint, asthma. The fumes of shellac produce the same disease, and hence hatters, and especially those who make sealing wax, are subject to it. Asthmatic people are proverbially long-lived, yet the complaint is by no means agreeable. The *Ready Relief* will mitigate or remove the paroxysms of the disease, and the *Renovating Resolvent*, taken according to direction, will effect a cure.

BAKERS

from the action of the acid of fermentation on the skin of their hands and the almost constant exclusion of air from the pores by the flour, are subject to a troublesome itch. For this the *Renovating Resolvent* is a sure remedy, but the *Relief*, diluted and applied as a wash, will aid in effecting the desired end sooner.

Occupations wherein sudden mental emotions or protracted mental labor forms a part, are not only productive of brain disease but of a gradual *ramollissement* or softening of the substance of the brain, whose approach may be told by neuralgia, either just below the eye or above the eyebrows. Asthma and costiveness, the latter the parent of piles, fistula, and similar troublesome complaints, are often the result. Hence it is that

LAWYERS, AUTHORS, EDITORS, TEACHERS, MERCHANTS, AND CLERGYMEN

are affected so much with neuralgia and costiveness. The treatment in those cases is *Radway's Ready Relief—internally and externally—the pain immediately ceases after its application. Radway's Regulating Pills* will, in a few hours, restore regularity to the bowels and liver. In certain cases of *Neuralgia* and other nervous affections, the *Resolvent* is requisite.

Exposure to heat characterizes some occupations, thus,

IRON-FOUNDERS, FURNACE-TENDERS, COOKS, AND KITCHEN-MAIDS,

are liable to asthma, costiveness, consumption, and inflamation of the spleen and liver. Enlargement of the liver is very common among all persons exposed to intense heat. Hence it is that liver complaints are so common in tropical climates. It need scarcely be said that the liver is a controlling organ, and that its derangement involves all the connecting viscera.—The derangement of this viscus may be combatted successfully by the proper use of the *Relief* and *Regulating Pills*, which in the spleen disease also act with speedy good effect. For rheumatism, if acute, the *Ready Relief*, applied both externally and internally, is generally found sufficient, though chronic cases, or such as may be combined with a scrofulous habit, will not yield without the *Renovating Resolvent* which utterly roots out the disease and restores the system to its normal state.

STEVEDORES, LONGSHOREMEN, PORTERS, QUARRYMEN, AND ALL PERSONS WHO LIFT GREAT WEIGHTS,

are exposed to attacks of pleurisy. The *Relief* will break the violence of this, and with the *Regulating Pills* effect a cure.

BOATMEN, DECK HANDS, DITCHERS, DOCK BUILDERS, SEAFARING MEN, RAFTSMEN, PHYSICIANS, STAGE DRIVERS, TRUCKMEN,

and all exposed to sudden changes of weather, are liable to liver complaint and rheumatic affections, but more especially to spleen diseases.

SEAMEN,

through long abstinence from vegetable diet, are subject to *Scurvy*. The use of *Radway's Regulating Pills* and *Renovating Resolvent* is a sure antidote for this distemper. In all cases of *Ship Fever, Small Pox, Cholera* or *Yellow Fever, Radway's Ready Relief* and *Regulating Pills* are positive preventatives if taken before the attacks, and certain curatives if used after.

STAGE-DRIVERS

are liable to suffer from diabetes, for which the *Regulating Pills* and *Resolvent* should be used.

PHYSICIANS,

who are frequently much exposed, should never be without the *Ready Relief*, especially in visiting patients sick with contagious diseases. The head, hands and face thoroughly washed with it, and a full dose of it taken internally just previous to the visit, will effectually prevent contagion. The power of the *Relief* in the matter of contagious diseases is really wonderful. It is a sure *preventive* to *Small Pox*; and in a well-known disease among cattle, known as *Black Tongue*, depending, no doubt, upon some contagious virus, yielded so readily to this remedy, that

DROVERS AND CATTLE DEALERS,

through the South and West, look upon it as a sovereign and infallible remedy in all such cases. Hence, too,

BOATMEN, PLANTERS OR FARMERS RESIDING IN LOW OR OCCASIONALLY OVERFLOWED GROUNDS,

will find the *Relief* a protection against *Fever* and *Ague* and other malarious diseases.

PRINTERS AND MINERS,

the former from standing so long at the case, and the latter from their cramped position in the mines, aided no doubt, by the dampness, have more or less troublesome affections of the joint occasionally.—These will always yield to the *Relief and Regulating Pills*, unless suffered to run too long, when the *Resolvent* may be required.

BUTCHERS

occasionally have life or limb endangered by a scratch or cut from a knife which has been used in dressing or opening an animal too long killed. Swelling of the part, itching and enlargement of the neighboring glands (kernels) follow. The wound should be washed, and a bread poultice (not bread and milk) moistened with some drops of *Ready Relief*, employed. The swelling should be bathed with the *Relief*, and the *Regulating Pills* used until the violence of the symptoms has abated. It may as well be mentioned here, that the making of a really good poultice is little understood. Stale bread should be rubbed into a fine crumb and placed in a soup-plate or large saucer, over which water, *while boiling*, must be poured. A similar plate or saucer is now to be placed over this, the two grasped firmly and held up sideways so that the water will drain out. The wet crumb is now to be rubbed into a pasty consistence with a spoon, placed on a rag at once, and applied to the part as warm as the patient will bear. As soon as it begins to harden around the edges a fresh one should be substituted, and thus a continual fermentation be kept up. This is the true poultice, which may be medicated by the *Relief* or others, if required.

BASKET-MAKERS, BOOT AND SHOE MAKERS, AND TAILORS,

from their sedentary habits, are subject to piles, anemia, tympanites, costiveness, hypochondria, diabetes, St. Vitus' dance, dropsy of chest, general debility, and, if the habit of the body tend that way, to apoplexy, or if not, to consumption and lung disease.—The treatment of these under our system is summary and effectual. For hypochondria, the *Ready Relief* and *Pills*; for dropsy and for St. Vitus's dance, the *Regulating Pills* and *Resolvent*; and for anemia, all three of the remedies. The treatment of the other affections have been already indicated.

The complaints of females engaged at various occupations are somewhat different from males, in consequence of their peculiarity of organization. It is true that those who live a sedentary life, or are occupied in pursuits which require them to stand or leap over their labor, are subject to similar diseases with those of the opposite sex in like occupation. Thus

FEATHER-DRESSERS, MILLINERS, PAPER-FOLDERS, PAPER-BOX-MAKERS, MATCH-DIPPERS SEAMSTRESSES, AND THE LIKE,

are liable to costiveness, piles, and general debility. But what they have most to dread is the derangement of those secretions which nature has wisely given them for their health and comfort. They are particularly liable to hysteria, obstructed, painful, or irregular menstruation, whites, kidney weakness, nervous and womb disease, for all of which the *Relief* and *Regulating Pills* are confidently prescribed; or subject to chlorosis, to be removed by the use of the *Resolvent*, in addition to the other two remedies named.

Perhaps of all female occupations, that of

THE FACTORY GIRL

is liable to the most distressing symptoms, more especially when the ventilation of the work room is not perfect. Standing position, monotonous employment, and floating particles continually drawn into the air passages, all combine to weaken, depress and destroy. Yet, by prudence, care, and the use of *Radway's Remedies*, even the factory girl may bid defiance to death and the doctors—otherwise a very formidable partnership to fight.

For the present we draw our remarks to a close.—But it does not follow that all occupations should be abandoned wherein people are subjected to acid fumes, poisonous materials, irritating vapors or particles, intense heat, changes of weather, exposure, and the debilitating efforts of stationary or constrained positions. With ordinary prudence, out-door exercise, and the use, when indicated by symptoms, of Radway's celebrated remedies, their lives may not only be saved, but their systems fortified, and their comfort insured. *Radway's Ready Relief* and *Regulating Pills* will be found all-sufficient to prevent or cure, except in chronic cases, or those in which the system has been prostrated; and even there, *Radway's Renovating Resolvent* will speedily remove all obstacles to the kindly influence of nature, and thus restore the system to perfect health.

In truth, if the *Ready Relief* be kept constantly on hand, and used at the outset of every attack according to directions, it alone will be found enough to avert or combat all the deleterious efforts we have named, and may be considered the great shield of those who otherwise would be overcome by disease and death.

It is not so many years since Radway's Remedies have been introduced; or the birth of that perfection of chemical and pathological science upon which they are based is itself comparatively new. The principles of their action are as old as humanity itself, but it remained for modern science to develop and apply them. How successfully this has been done, the overwhelming popularity and universal sale of Radway's Remedies show. The sovereign power of these blessings to the sick and suffering is indisputable; they are in themselves the entire vegetable materia medica; and they are rapidly superceding all the inert or poisonous drugs whose use and abuse has done so much to bring

"Death into the world, and all our woe."

The price of Radway's Remedies places them within the reach of every human being—the *Ready Relief* is sold for 25 cents, 50 cents and $1 per bottle; *Radway's Pills* 25 cents per box; *Resolvent* $1 a bottle.
